MEASURES WHICH AFFECT EXPORTS

Non-Tariff Barrier Notifications

1. Contracting parties have been requested to submit notifications of non-tariff barriers facing their exports of agricultural products (COM.AG/14, paragraph 8(d)). The Committee has also agreed to deal with notifications transferred to the Agriculture Committee by the Industrial Committee in the context of this exercise (COM.AG/17, paragraph 2).

2. The Committee has since agreed that all notifications which it received should be referred for preliminary examination to the relevant Group (L/3320, paragraph 10).

3. Attached are specific notifications received which appear to relate to the work of Group 1 dealing with measures which affect exports. Notifications have been received to date from Australia, Canada, Czechoslovakia, the European Communities, Israel, Japan, New Zealand, Swaziland, United Kingdom and United States. All of these delegations make the point that the list of restrictions submitted is not exhaustive and reserve the right to make additional notifications in the future. In addition, the United States notification contained the following statement:

"Without prejudice to subsequent consideration of subsidies in the GATT, the United States has not included subsidies and rebates in the country inventories. It may wish to propose a general review of subsidy schemes or tax advantages granted producers, or it may wish to discuss individual countries' subsidies granted for specific products. A number of countries give subsidies and rebates for various agricultural products and the effect on trade in some cases is substantial."
