In paragraph 9 of document L/1435 (report on the meeting of Committee III of 21 to 28 March 1961), the secretariat was requested to prepare draft summary schedules showing details on tariffs, quantitative restrictions, revenue duties and internal fiscal charges, State-trading and other measures in force in relation to imports of products in the third list to be examined by the Committee in September 1961.

In response to this request, the secretariat produced a draft summary schedule for cement, which was circulated to contracting parties for comments. On the basis of various comments received the secretariat has now prepared a revised version of the summary schedule for the product in question.

A fourth reduction by 10% in internal tariffs applied among member states of the EEC will take place on 31 December 1961.

1. Liberalized when imported from the member countries of the EEC, Canada and the United States.
2. Restricted when imported from other sources.

### Quantitative Restrictions

#### Switzerland

Restrictions on certain types of cement from Eastern Area only

#### United Kingdom

None

#### Portugal

Restrictions on certain types of cement from Eastern Area only

---

### Notes

(1) **Liberalized Imports:** when originated from Member States of the OECD and its dependent territories, United States and its territories, Canada, Morocco, Finland, Australia, Ghana, Malaya and Rhodasia and Nyassaland.

(2) **Global Quotas for the OECD countries, United States, and Canada:** none

(3) **Global Quotas for the EFTA countries:** none

(4) **Multilateral Quotas negotiated under bilateral agreements.**

(5) **Others:** even where the liberalization does not apply, and there is no agreement relating to the grant of licences under bilateral or global quotas, imports from any country may be authorized without any limitation, provided that the goods in question are of interest to the country and their importation does not create difficulties.

---

### Notes

(1) **Multilateral import treatment:** the list of countries to which the multilateral import treatment is applicable has been extended to cover the newly independent African countries, the sterling area, the franc area, and the remaining dollar area, in addition to, as hitherto, most western countries. Imports are licence free, except for goods under global quotas or subject to individual licensing (only a small number of items, mainly fuels, but also including some agricultural products, remain subject to individual licensing control). Note: In the Global Quota List of 1 July, 1961 Tariff No. 25.23 is included in quota No. 11, Products of chemical industry etc., which totals 430 million Fin marks.

(2) **Import treatment from bilateral countries:** this arrangement is applicable to the following countries: Bulgaria, Colombia, Czechoslovakia, German Democratic Republic, Greece, Hungary, mainland China, Poland, Rumania, Turkey, USSR, Yugoslavia, The imports of goods from these countries are subject to licensing as fixed in the quotas of the trade agreements.

(3) **Import treatment from other countries:** imports from other countries not mentioned above are subject to licensing.

**Quantitative Restrictions**

- **Global quota for 1961**
- **Note:** Global quotas are applied to: those countries which have granted Spain convertibility of balances arising from its exports (see L/1401)
- **Restricted except from France**

**Sixth import programme for first half of 1961**

- **(a)** Liberalization imports: Goods shown in the list can be freely imported under licences which are issued automatically upon application. Cement is not included in this list.
- **(b)** Global quota allocation: This list contains global quotas fixed for goods subject to quantitative import restrictions when imported from EMA and Free-Exchange Areas. White cement and the other cement are included in this list.
- **(c)** Restricted imports: Imports of goods of all kinds from bilateral countries are limited to the quotas fixed in the lists attached to the agreements. Consequently, products which are imported without any restriction from the free currency area are subject to quantitative restrictions when imported from bilateral trading countries.

**Revenue and Internal Fiscal Charges**

- **Import Tax 10%**
- **Countervailing Tax 12.5%**

**State Trading and Monopolies**

- None

**Others**

- None
