It is suggested that the following subjects be included in the agenda for the next meeting of the Committee, to be held from 18 to 21 October 1966.

1. Developments relevant to the operation of Part IV of the General Agreement

   It has been agreed by the Committee that "the implementation of the provisions of Part IV should appear as an item on the agenda of all meetings of the Committee on Trade and Development to permit governments to take note of any problems and developments of an urgent character" (COM.TD/24, paragraph 10). The secretariat will supply a note briefly outlining significant developments in recent months.

2. Import restrictions affecting exports of developing countries

   At its last meeting, the Committee asked the Group on Residual Restrictions (a) to hold country-by-country discussions with contracting parties on their restrictions on products notified in the context of the Kennedy Round and (b) to consider reports submitted by contracting parties on action taken or proposed to be taken in pursuance of the decision of the twenty-third session concerning the removal of restrictions on products notified to Committee III (COM.TD/24, paragraphs 14-15). The Group, which meets on 17 October, is expected to submit its recommendations on these two points for consideration.

3. Expansion of trade among developing countries

   The informal group of less-developed countries in GATT has been asked by the CONTRACTING PARTIES to arrange exploratory talks and negotiations among developing countries for the purpose of expansion of trade among themselves (L/2614, paragraph 34). The Group on Expansion of Trade Among Developing Countries has also considered certain other, non-tariff measures proposed by contracting parties. The Committee may wish to take note of the disposition taken at the last meeting of the Group for the further consideration of these proposals (cf. COM.TD/D/4).
Under this general heading, the Committee may also wish to consider what other aspects of the problem of expansion of trade among developing countries could appropriately be taken up by the Group, taking account of studies made and discussions held in UNCTAD and elsewhere.

4. **Participation of developing countries in the Kennedy Round**

In view of the importance of the Kennedy Round to developing countries and the interest shown by them in its progress, the Committee may wish to take this opportunity to review the present state of the negotiations, with particular reference to problems relating to the participation of developing countries. The Chairman of the Trade Negotiations Committee Sub-Committee on the Participation of Less-Developed Countries may be invited to make a statement on the various aspects of the negotiations of interest to developing countries.

5. **Future programme of work of the Committee**

Apart from generally reviewing the programme of work of the Committee and its subsidiary bodies, the Committee will no doubt wish to examine the following two subjects:

(a) Schedule of meetings of the groups.

(b) Date and agenda for the Committee meeting to be held in Uruguay.
