ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4:4

Bilateral agreement between
Sweden and China

The Textiles Surveillance Body received a notification from Sweden of a bilateral agreement concluded with China for the period 1 December 1988 to 31 July 1991. This agreement replaced previous bilateral quotas agreed outside the framework of the MFA.

The TSB, pursuant to its procedures regarding bilateral agreements concluded under Article 4,¹ has examined the relevant documentation and is forwarding the text of the notification to participating countries for their information.²

¹See COM.TEX/SB/35, Annex B.
²For the TSB’s observation on this agreement see COM.TEX/SB/1619.
*English only/Anglais seulement/Inglés solamente
AGREEMENT BETWEEN THE GOVERNMENT OF THE
PEOPLE'S REPUBLIC OF CHINA AND THE GOVERNMENT OF SWEDEN
REGARDING THE EXPORTS OF CERTAIN TEXTILE PRODUCTS FROM THE
PEOPLE'S REPUBLIC OF CHINA TO SWEDEN

Article 1

The following Agreement has been reached having regard to the
Arrangement Regarding International Trade in Textiles bearing in mind
particularly the provisions of Article 4 thereof and the provisions of GATT
document L/6030.

Article 2

This Agreement shall apply for the periods specified in Annex I.

Article 3

The Government of the People's Republic of China will limit exports
from the People's Republic of China to Sweden of the textile products,
listed in Annex I to this Agreement, to the levels set out in that Annex.
The date of shipment indicated on the shipping documents shall be
considered to be the date of exportation.

Article 4

(a) This Agreement shall apply to exports from the People's Republic of
China to Sweden of the textile products described in Annex I hereof,
of cotton, wool or man-made fibres, or blend thereof, in which any or
all of these fibres in combination represent either the chief value of
the fibres or 50 per cent or more by weight (or 17 per cent or more by
weight of wool).

(b) This Agreement shall also apply to the products described in Annex I
hereof, which are manufactured from impregnated fabrics as defined in
Annex III of this Agreement.

(c) The classification of the products covered by this Agreement is based
on the International Convention on the Harmonized Commodity
Description and Coding System (HS) and the Swedish customs tariff
derived from this system (Annex II).

(d) The origin of the products covered by this Agreement shall be
determined in accordance with the rules in force in Sweden.

Article 5

The Government of Sweden will admit imports of the textile products of
Chinese origin, listed in Annex I, provided that such imports are covered
by an Export Licence, as per specimen in Annex IV. Such a document shall
be issued by the competent Chinese Authorities listed in Annex V, be
consecutively numbered, state the group number and bear an endorsement that
the consignments concerned have been approved and debited to the agreed
group limit for exports to Sweden for the relevant period.
Article 6

(a) If in the period 1 December 1987, to 30 November 1988, the group limits specified in the relevant columns of Annex I to the Agreements of 14 October 1984 and 29 April 1987, are not fully utilized, the Government of the People's Republic of China may, after consultations with the Government of Sweden, during the period 1 December 1988 to 30 November 1989 approve the export of additional amounts (carryover), wherever appropriate, equivalent to such shortfalls provided that such exports

(i) are in the same groups where the shortfalls occurred;

(ii) do not exceed 5 per cent of the limit for group 1 as specified in the relevant columns of Annex I to the Agreements of 14 October 1984 and 29 April 1987;

(iii) do not exceed 3 per cent of the limits for groups 5, 6c,d, 8, 9, 10, 13, A and B as specified in the relevant columns of Annex I to the Agreements of 14 October 1984 and 29 April 1987.

(b) If in any period of this Agreement, the group limits specified in Annex I to this Agreement are not fully utilized, the Government of the People's Republic of China may, after consultations with the Government of Sweden, during the subsequent period approve the export of additional amounts (carryover) equivalent to such shortfalls provided that such exports

(i) are in the same groups where the shortfalls occurred;

(ii) do not exceed 5 per cent of the limit for group 1 for the period during which the shortfalls occurred;

(iii) do not exceed 3 per cent of the limits for groups 5, 6c,d, 8, 9, 10, 13, A and B for the period during which the shortfalls occurred.

(c) During each period of this Agreement, the Government of the People's Republic of China may, after consultations with the Government of Sweden, approve the export of amounts in excess (carry forward) of the group limits specified in Annex I to this Agreement up to 5 per cent of these limits for group 1 and 3 per cent for groups 5, 6c,d, 8, 9, 10, 13, A and B for the relevant period. Where specific group limits have been increased by carry forward the Government of the People's Republic of China shall inform the Government of Sweden of the carry forward quantities and debit these to the corresponding group limits which are agreed or may be agreed upon for the subsequent period.

(d) During each period of this Agreement, the Government of the People's Republic of China may, after consultations with the Government of Sweden, approve the export of amounts in excess of the group limits specified in Annex I to this Agreement up to 5 per cent of these
limits for group 1 and 3 per cent for groups 5, 6c,d, 8, 9, 10, 13, A and B (swing). Where specific group limits have been increased by swing a corresponding reduction shall be made in one or more or other group limits. For the purpose of calculating swing, the conversion factors in Annex I shall apply.

(e) During each period of this Agreement, the additional export quantities resulting from carryover, carry forward and swing taken together shall, for specific group 1 not exceed 10 per cent of the agreed limit; for groups 5, 6c,d, 8, 9, 10, 13, A and B they shall not exceed 6 per cent.

Article 7

The Government of the People's Republic of China will forward to the Government of Sweden, via the Embassy of Sweden in Beijing, monthly statistics on a cumulative basis of the quantities of the items as listed in Annex I for which duly endorsed Export Licences for export to Sweden have been issued. The statistics shall reach the Government of Sweden within a period of two months from the month under reference.

Article 8

If the information available to the Swedish authorities shows that the quantitative limit for category of products specified in an Export Licence has already been reached, or the unused portion of that limit is insufficient to cover the goods specified in the Export Licence, the said authorities may refuse to admit any quantity in excess of the quantitative limit. In this event the Government of Sweden shall inform the Government of the People's Republic of China as soon as possible. Should any excess quantity be permitted to enter Sweden, the authorities of the People's Republic of China shall, upon information by the Swedish authorities deduct the overshipped quantity from the relevant level which is agreed or may be agreed upon for the following restraint period.

Article 9

Both parties regard it as essential that exports from the People's Republic of China to Sweden of goods listed in Annex I are evenly spaced throughout the period of agreement, taking into account normal seasonal factors, and that due consideration is given to traditional patterns of trade. Accordingly, the Government of the People's Republic of China undertakes to provide a procedure to achieve this.
Article 10

The Government of the People's Republic of China and the Government of Sweden agree to consult each other, at the request of either party, when any problem arises from the implementation of this Agreement. The Government of the People's Republic of China and the Government of Sweden agree furthermore to enter into consultations on a prolongation, modification or removal of the limitations before the end of the period of the Agreement.

Should a textile product, not included in this Agreement, be imported into Sweden from the People's Republic of China in such quantities as to cause a real risk of market disruption in the opinion of the Government of Sweden, the said Government may request consultations concerning that product. Both parties agree to consult as soon as possible with a view to finding a mutually acceptable solution. Such a Swedish request will be based on import licensing figures and consultations will take place not later than ninety days from the date when the Chinese authorities have been notified thereof.

In case there are divergent opinions on classifications of products at the point of entry into Sweden, between the two parties to this Agreement, the classification shall be based on information provided by the competent Swedish authorities. Should the Chinese authorities request consultations concerning the classification of the product concerned, such shall take place with a view to reaching agreement as soon as possible.

Article 11

The Government of the People's Republic of China and the Government of Sweden agree to collaborate with a view to taking appropriate action to avoid circumvention of limitations set out in this Agreement.

When evidence shows that there is a case of circumvention of this Agreement, both parties shall conduct consultations immediately in accordance with Article 10 of this Agreement, so as to decide what appropriate measures should be taken, including the appropriate adjustments of the quantitative limits for the products concerned.

Article 12

Either Government may terminate this agreement before the end of the period of validity, provided that at least one hundred and twenty days' notice is given. In such event the Agreement shall come to an end on the expiry of the period of notice.

Article 13

The Annexes to this Agreement shall be considered as an integral part of it.
Article 14

This Agreement has been drawn up in two copies in the English language, each of these being equally authentic.

Done in Beijing on 9 December 1988

For the Government of the People's Republic of China

For the Government of Sweden

REMARKS

The denomination babies' garments applies to sizes not exceeding 86 centimetres.

Babies' garments, not knitted or crocheted, are not restrained.

The denomination shirts for hospital use means garments procured according to a specific standard for hospital use, not knitted or crocheted, made of fabrics of cotton or man-made fibres or blends thereof, with or without a collar, long or short sleeves, divided in front and have a buttoning or any other fastening system, left over right or right over left.

Group 6 c/d, jackets, includes ladies suit jackets the outer shell of which (exclusive of sleeves, and facings or collar if any) consist of at least four panels (two in front and two at the back) sewn together lengthwise, with full front opening without a closure or with a closure other than a slide fastener (zipper).

Group A also includes all garments such as coats, jackets and trousers or sets thereof manufactured from impregnated fabrics (HS 59.03) as defined in Annex III of the Agreement. The above described garments are classified according to HS-headings 61.13 and 62.10.

Group B also includes sets according to its description though they are classified separately according to the HS-numbers for each piece of the set.

Sets of matching outer garments including inter alia ski suits, which are invoiced, packed and shipped together as sets (excluding costumes in Group 9; suits track suits and bathing suits in Group 11b)

*)If in the HS nomenclature a set according to the set description above will be classified separately according to the numbers for each piece of the set, the set should though be included in Group B.
ANNEX III

DEFINITION OF "IMPREGNATED FABRICS" FOR THE PURPOSES OF ARTICLE 4

1. Fabrics of cotton, wool or man-made fibres or any blend containing one or more of those fibres in which either wool represents 17 per cent or more by weight or any or all of those fibres in combination represent 50 per cent or more by weight of the unfinished fabric shall be defined as "impregnated fabrics" where those fabrics have been impregnated, coated, covered or laminated with preparations of cellulose derivatives or of other artificial plastic materials whatever the nature of the plastic material (compact, foam, sponge or expanded).

2. The definition does not cover:
   a) fabrics which, after impregnation, coating, covering or lamination, cannot, without fracturing, be bent manually around a cylinder of a diameter of 7 mm at a temperature between 15 and 30 degrees C;
   b) fabrics either completely embedded in artificial plastic material or coated or covered on both sides with such material.
