ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification transmitted under Article 4

Agreement between Canada and the Czech Republic

The Textiles Surveillance Body received a notification from Canada of an agreement with the Czech Republic converting the relevant restraint levels of the pre-existing Canada/Czech and Slovak Federal Republic agreement to apply to the Czech Republic for the period 1 January 1993 to 31 December 1993.

The notification had been made under Articles 7 and 8 before the Czech Republic had accepted the 1992 Protocol extending the Arrangement. The TSB has reviewed the documentation in accordance with its procedures for agreements concluded under Article 4, and is forwarding the text of the notification to participating countries for their information.

93-1197
The Department of External Affairs presents its compliments to the Embassy of the Czech and Slovak Federal Republic and has the honour to refer to the Memorandum of Understanding between the Government of Canada and the Government of the Czech and Slovak Federal Republic relating to the export from Czechoslovakia of certain textiles and textile products for import into Canada (MOU).

In light of the continued delay in the completion of the Uruguay Round of Multilateral Trade Negotiations, it is clear that the MTN results on textiles and clothing will not be implemented on 1 January 1993, as was expected last year when the MOU was extended until 31 December 1992. To date, the Textiles Committee of the GATT has not taken a decision on the extension of the Arrangement Regarding International Trade in Textiles (MFA) beyond its expiry date of 31 December 1992. It is likely that a decision in this respect will not be made until much later in 1992.

Under these circumstances, there is already considerable uncertainty among producers, exporters and importers in Canada and in Czechoslovakia with respect to the rules which will govern our bilateral trade in clothing in 1993. Orders have already been placed for delivery in 1993. Manufacturers in Canada and in Czechoslovakia will soon have to purchase products to meet their 1993 delivery commitments. Canadian importers also have committed themselves to meet increasingly stringent deadlines for delivery to their Canadian customers. In the absence of the extension of the MOU, the Canadian authorities are not in a position at this time to counsel Canadian importers on whether the current import régime would continue into 1993.

Canadian authorities remain committed to maintaining an effective import control policy for the textile and clothing industries in order to ensure a moderate growth in low-cost imports and to provide the Canadian industry with a climate that is conducive to an orderly adjustment process. The current bilateral textile agreement between Czechoslovakia and Canada has served to ensure secure terms of access for exports of textile products from Czechoslovakia.

The Canadian authorities propose that the MOU be extended until 31 December 1993, or if the Czech and Slovak authorities are agreeable, to 31 December 1994. This extension would apply to all terms and conditions of the MOU, including growth rate and flexibility provisions. It would also be without prejudice to any changes that may be required to be implemented as a result of a successful conclusion of the Uruguay Round. Therefore, in the event that the MTN results are implemented in 1994, the second year of this extension would be superseded by the restraint structure contained in the MTN agreement.
If the authorities of the Czech and Slovak Republic are in agreement with the proposed extension of the MOU, the Canadian authorities propose further that the attached documents, which represent the conversion of the structure of restraints on imports of clothing into Canada from Czechoslovakia to one based on the Harmonized System, replace the Annexes I and II appended to the MOU, effective 1 January 1993.

The Canadian authorities would appreciate an early response to these proposals. In the event that the Czech and Slovak authorities are in agreement with these proposals, the Canadian authorities would propose that this note, along with the reply from the Czech and Slovak authorities, constitute an agreement extending the MOU based on the HS until the date on which we mutually agree.

The Department of External Affairs avails itself of this opportunity to renew to the Embassy of the Czech and Slovak Federal Republic the assurances of its highest consideration.

Letter from the Czech and Slovak Federal Republic

No. 150/92

The Embassy of the Czech and Slovak Federal Republic presents its compliments to the Department of External Affairs and International Trade and has the honour to refer to the Department's Note No. KPT-1590 dated 8 October 1992, regarding the proposed extension of the Memorandum of Understanding between the Government of the Czech and Slovak Federal Republic and the Government of Canada relating to the export from the CSFR of certain textiles and textile products for import into Canada /MOU/.

The Embassy has the honour to inform that the Czech and Slovak authorities are agreeable to the proposal that the MOU would apply to all terms and conditions of the MOU.

The Czech and Slovak authorities further agree that the attached documents, which represent the conversion of the structure of restraints on imports of clothing into Canada from the CSFR to one based on the Harmonized System, replace the Annexes I and II appended to the MOU, effective 1 January 1993.

Being in agreement with the proposals of the Canadian authorities, the Czech and Slovak authorities understand that the Department's Note No. KPT-1590 and this reply constitute an agreement extending the MOU based on the HS until 31 December 1993.

The Embassy of the Czech and Slovak Federal Republic avails itself of this opportunity to renew to the Department of External Affairs and International Trade of Canada the assurances of its highest consideration.
