ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4:4

Amendment to the Agreement between Canada and Macao

The Textiles Surveillance Body has received a notification from Canada of an amendment to its bilateral agreement with Macao concluded under Article 4 of the Arrangement.¹/

The TSB, pursuant to its procedure regarding bilateral agreements notified under Article 4:2/ has examined the relevant documentation and is circulating the text of the notification to the participating countries.

¹/ For details of the original agreement, see COM.TEX/SB/524.
²/ See COM.TEX/SB/35, Annex B.
Discussions between delegations of the Governments of Canada and Macau concerning trade in selected textile products were held in Macau on January 28 and 29, 1980. As a result of these consultations, both delegations agreed to amend the Memorandum of Understanding, which was initialled by representatives of both Governments in Macau on December 7, 1978, by extending the coverage of the arrangement.

For the period January 1, 1980 to December 31, 1981, it is agreed that the Government of Macau will limit its exports of work gloves and of men's and boy's structured and unstructured suits, sportscoats and blazers, as defined in Items 8, 9 and 10 which are deemed to be included in Annex A of the arrangement. The restraint levels established for these three items for the above period are:

- 8 500 units (1980) and 9 010 units (1981) for Item 8;
- 9 000 units (1980) and 9 540 units (1981) for Item 9;
- 1 800 000 pr. (1980) and 1 908 000 pr. (1981) for Item 10.

Both parties agree that this Record of Discussions, together with the attached pages which are to be added to the Memorandum of Understanding, will form an integral part of the arrangement between Canada and Macau, for the period 1 Jan 1980 to December 31, 1981.

For the Government of Canada

For the Government of Macau
