Dr. Asyik Ali  
Director  
Export of Industrial and Mining Products  
Department of Trade  
Government of Indonesia

Dear Dr. Ali,

I have the honour to refer to the bilateral discussions between representatives of the Government of Indonesia and the Government of Canada which took place 8-9 August in Ottawa and have the pleasure in confirming on an ad referendum basis the one-year bilateral restraint arrangement covering trousers, pants, slacks and jeans. The definition for this product is attached as Annex I.

I have further the honour to confirm the following understanding reached as a result of the above-mentioned discussions in accordance with the provisions of the Arrangement Regarding International Trade in Textiles (MFA).

The Government of Indonesia will limit its shipments based on the date of export for the twelve-month period ending 31 December 1983 to those shipments that are covered by irrevocable letters of credit issued prior to 18 July 1983. The Government of Canada in recognition of Article 6 of the MFA, and paragraph 12 of the Protocol of Extension as they pertain to Indonesia undertakes to accept shipments of trousers, pants, slacks and jeans up to the above-mentioned maximum level for 1983, on the agreed understanding that the maximum level consists of the following two parts:

(i) the level recommended by Article 3 and Annex B of the MFA, that is, trousers, pants, slacks and jeans arriving in Canada during the first twelve of the fourteen months preceding the date of the request for consultations (18 July 1983), and

(ii) any excess shipments in 1983 if they are bona fide contracts covered by irrevocable letters of credit issued prior to 18 July 1983. These excess shipments will be allowed into Canada on an ex-quota basis as an exceptional measure for 1983 only.
The Indonesian Department of Trade will endeavour to issue Certificates of Origin, Form K for the product listed in the attached Annex I certifying that the quantity is within the agreed limit. The Canadian Department of External Affairs will issue import permits for each original Certificate of Origin.

The Certificate of Origin, Form K (attached as Annex III) will contain the following information:

(a) Country of destination
(b) Country of origin
(c) Certificate of Origin number
(d) Importer's name and address
(e) Exporter's name and address
(f) Category number and description of product as set out in Annex 1.
(g) Quantity expressed in units as designated in Annex I
(h) f.o.b. or c.i.f. value except for non-commercial consignments.

The Indonesian Department of Trade agrees to furnish the Canadian Department of External Affairs through the Canadian Embassy in Jakarta with precise statistical information, on a monthly basis, of all Certificates of Origin issued for trousers, pants, slacks and jeans.

With reference to Article 12(3) of the MFA, this arrangement shall not apply to bona fide handmade clothing of handloomed fabric as defined in Annex II when accompanied on importation by a certificate validated by competent Indonesian authorities. A sample certificate is attached as Annex IV.

The two governments will consult with each other at the request of either government in respect of any problem arising from this arrangement or any other matter relating to trade in textile products between the two countries.

The two governments agree to commence consultations no later than sixty days before the expiry of this arrangement with a view to concluding a long-term arrangement covering the period beyond 1 January 1984.

I have further the honour to propose that this arrangement will become effective subject to confirmation of the quantity of trousers, pants, slacks and jeans of Indonesian origin imported into Canada at the date of notification (18 July) and subsequent to an exchange of notes between the two governments confirming their acceptance of this arrangement and will apply for the calendar-year period commencing 1 January 1983.

Yours sincerely,
