Pursuant to the revised procedures for review meetings circulated in the communication from the Chairman of the Council dated 30 April 1993 (L/7208), the following is an outline of the main points to be raised by Miss Anne Stoddart (United Kingdom) at the review of Zimbabwe to be held on 1-2 December 1994. Points to be raised by Mr. Abdelkader Lecheheb (Morocco) will be circulated subsequently.

It is recalled that discussants act in their personal capacity.

1. Compliment Zimbabwe on the reforms made in its trade régime and the fact that the tariff is now the major instrument of border protection.
2. Prospects for introducing more certainty into the tariff régime by binding more non-agricultural tariffs.
3. Measures planned in relation to textile and clothing imports, once they are removed from the Negative List, as well as the timing of the change.
5. Progress in developing market-oriented reforms in the agricultural sector, including cotton.
6. Possible usefulness of additional legislative measures, e.g. on safeguard action.
7. Objectives in the renegotiation of the trade agreement with South Africa.
