**Export of Domestically Prohibited Goods**

**NOTIFICATION**

1. **Country notifying:** COLOMBIA

2. **Responsible authority:** -

3. **Description of goods:** -

4. **Human health and safety grounds for banning the goods:** -

5. **Other relevant information:** In Colombia, when a product is found to be harmful for human health, the Ministry of Health or the competent authority in each case immediately suspends the registration authorizing the manufacture and sale of the product, or refuses to grant it.

Due to the fact that for the export of products affecting health the export registration has to be accompanied by the manufacture and sale registration granted by the Ministry of Health or the competent authority, it is not possible to register the export of any product in respect of which the corresponding manufacture and sale registration has been suspended or refused.
