ANOTATED PROVISIONAL AGENDA

FOR THE EIGHTH SESSION OF THE CONTRACTING PARTIES

COMMENCING 17 SEPTEMBER 1953

With recommendations by the
Ad Hoc Committee on Agenda and Intersessional Business

Recommendations of the Committee

The Committee considers that the CONTRACTING PARTIES should not attempt to determine the order of business to cover all items since it cannot be foreseen what order would be most expeditious and would best suit the convenience of delegations, but might suggest that the following items be taken in the first days of the Session and that the Chairman would recommend the order of business from time to time for subsequent meetings:

(i) The Adoption of the Agenda
(ii) Election of Chairman and Vice-Chairman
(iii) Article XXVIII
(iv) Difficulties arising out of application of Art.I
(v) Accession of Japan.

The Committee recommends, in order to avoid a change in the Chairmanship during the Session, that the Chairman's term of office (which expires on 2 October) be extended for the duration of the Session and that the election of Chairman and Vice-Chairman for the following year be held towards the end of the Session. The Committee also recommends that a Vice-Chairman be elected for the duration of the Session.
3. ARTICLE XXVIII

A Note by the Chairman on tariff questions arising at the Eighth Session was distributed in L/93. The views of the Greek Government appear in L/117. A secretariat draft of a declaration to prolong the assured life of the schedules beyond 31 December 1953, prepared under the instructions of the Committee, was issued in L/108.

4. REPORT BY THE WORKING PARTY ON THE REDUCTION OF TARIFF LEVELS

The Sub-Group of the Working Party which is examining the technical aspects of the French plan, was convened on 11 September to complete its report. A revision of the plan submitted by the Government of France, and a note by the Italian Government on this revised plan appear in L/103 and L/123 respectively.

The Committee recommends that the Working Party should meet to receive the Sub-Group's report early in the Session prior to the discussion of this item by the CONTRACTING PARTIES. The Committee considers that it would be useful if the CONTRACTING PARTIES would examine the questions of principle raised by the French plan against the background of the broader question of the adequacy of the present negotiating procedures. It was clear to the Committee that any such discussion at the Eighth Session could not in present circumstances be carried very far, and therefore the Committee considers that the CONTRACTING PARTIES might appoint an intersessional body to pursue these matters after the Eighth Session at such time as may seem appropriate having regard to the prospects for further progress in the process of tariff reduction.
5. CREATION OF A "LOW TARIFF CLUB"

A request by the Council of Europe that the C-Ps study the substance of their proposal appears in G/46/Add.1. A comparison of the Strasbourg and the French plans, and the text of the former, will be issued by the secretariat.

6. ACCESSION OF JAPAN

The Committee, following its meeting in February 1953, submitted for the consideration of C-Ps in L/76 a proposed interpretation of Art. XXIII which might be adopted in the event of the accession of Japan pursuant to Art. XXXIII. The Japanese proposal for a provisional arrangement for the regulation of Japanese commercial relations with C-Ps was issued in L/109. In order to clarify the issues involved in the Japanese proposal for a provisional arrangement, the Committee instructed the Executive Secretary to set out in technical terms an instrument which might be used to give effect to this proposal, in the event that it should commend itself to the C-Ps. A Note by the Executive Secretary (with a draft Decision for the provisional participation of Japan in the General Agreement) was issued in L/107 and Corr.1.

The Committee considers that it will not be necessary for the C-Ps to discuss its earlier report (L/76) unless they should decide to proceed with the Japanese application to accede under Art. XXXIII, or unless a C-P should wish to raise any matter covered by that report in the discussion of the proposal submitted by the Japanese Government (L/109).

The Committee recommends that the proposed intersessional body be asked to examine, against the same background, the Strasbourg plan and also any proposals that might be submitted by C-Ps.
7. BALANCE-OF-PAYMENT IMPORT RESTRICTIONS

(a) Consultations under Art. XIV:1(g) A Note on the seven consultations initiated in March 1953 is contained in L/86. Notes on the discriminatory application of restrictions by the consulting governments are given in L/126 and certain information from the IMF appears in L/79.

(b) Fourth Annual Report on Discrimination Nineteen c-ps have submitted replies to the questionnaire in L/69; a copy of each reply has been sent to each c-p. Replies from Brazil, Chile and Pakistan are awaited.

(c) Procedures for report and consultations under Art. XIV:1(g) in 1954

Recommendations of the Committee

The Committee recommends that the working party appointed to deal with these items should not meet earlier than 1 October.

The Committee proposes, for consideration by the C-Ps, that if it should prove impossible to carry out at the Eighth Session any of the seven consultations initiated in March 1953, the C-Ps should record that the c-p concerned had fulfilled its 1953 obligation to consult. Further, the Committee proposes, for consideration by the C-Ps, that if it should not be possible to complete any of the three consultations initiated in 1952 but not completed at the Seventh Session, for the same reason that led to its postponement last year, the C-Ps should record that the c-p concerned had fulfilled its 1952 obligation to consult.

The Committee recommends that preparation of the annual report on discrimination be entrusted to the working party which conducts the consultations and that, in future, these reports be published, along with other working party reports, in Supplements to Basic Instruments and Selected Documents.

The Committee recommends that this item be referred to the working party which conducts the consultations.
In addition to the seven consultations deferred at the Seventh Session the Committee has initiated consultations with the Netherlands and Pakistan to take place at the Eighth Session provided that the Fund will be ready to consult with the C-Ps pursuant to Art.XV. The Fund has been invited to consult. L/125 contains a description of the modifications of restrictions by the nine governments and certain information from the Fund is given in L/79.

8. SPECIAL EXCHANGE AGREEMENTS

(a) Report by the Chairman on the operation of the Agreements with Haiti and Indonesia

The report by the Chairman (see para.(a)) will deal with questions arising in connection with this item.

(b) Reports and consultations under Art.XI of the Agreements

The report by the Chairman on the operation early in the Session.

The Government of Haiti became a member of the Fund on 8 September 1953.

The Committee proposes, for consideration by the C-Ps, that if it should not be possible to complete any of the seven consultations initiated in 1952 but not completed at the Seventh Session, for the same reason which led to its postponement last year, the C-Ps should record that the C-P concerned had fulfilled its obligations.

The first annual reports of the Governments of Italy and Libya have been distributed in L/111 and L/112. The C-Ps may wish to consider whether the Government of Libya should be asked to send representatives to discuss the operation of the waiver at this Session.

The Committee recommends that these three items be referred to a working party with a composition similar to that of the working party appointed to deal with these items at the Seventh Session and that the working party be instructed to consult with representatives of the ICC Ansofar as this would facilitate their discussions.

The Committee recommends that the working party appointed to deal with this item should not meet earlier than 5 October.

A copy of the fourth annual report of the Southern Africa Customs Union Council was sent to each C-P with L/104. At the meeting of the Committee in August the representative of Brazil agreed to press for the prompt submission of a report by his Government.

18. BELGIAN FAMILY ALLOWANCES

The complaint of the Danish and Norwegian Governments was examined by the Panel at the Seventh Session and the C-Ps recommended to the Belgian Government to remove the discrimination and asked for a report to the Eighth Session. In a pattern of conferences for the European Office for the years 1954-1957 the Secretary-General of the U.N. suggests that sessions of the C-Ps be held during: the last week of September, the month of October and the first week of November. The annual meeting of the Governors of the IMF is held in the second week of September.

42. OTHER BUSINESS

The Committee recommends that in considering the date and place of the Ninth Session the C-Ps should take into account the pattern of conferences established by the Secretary-General and the desirability of avoiding a clash with the date foreseen for the annual meeting of Governors of the IMF.
