On page 2, after the summary of the remarks of Dr. Coombs (Australia), insert the following:

"Mr. HAKIM (Lebanon) raised the legal question of the entry into force of the General Agreement which he thought was basic to the whole discussion of the application of Article XXIX on supersession and as well as Article XXX on amendment. He pointed out that since the General Agreement has not entered into force and therefore neither Article XXIX nor Article XXX were applicable, any changes or amendments should be made by agreement of all the signatories of the Final Act of the General Agreement including, in addition to the Contracting Parties, all the other signatories."
