The Greek delegate wishes to make the following extension of his remarks concerning the United States import duty on dried figs:

Mr. Bitsios said he would like the question to be kept on the agenda to as to enable the parties concerned to report later to the Contracting Parties. He asked that the United States should not impose any additional measures to restrict imports of dried figs, by increasing rates of duty or through action under Section 22 of the Agricultural Adjustment Act.

In his reply the United States delegate, Mr. Winthrop Brown, said he had no objection to the question remaining on the agenda. As far as he knew the United States Government had no intention of introducing any new duties nor of taking any action with respect to figs under Section 22. In any case, if any action were taken under Section 22 there would be advance consultation with the countries affected.
