GENERAL AGREEMENT ON TARIFFS AND TRADE

Protocol establishing new Brazilian Schedule of Tariff Concessions opened for signature

In 1957 Brazil was granted a waiver which enabled her to bring into force a new customs tariff and arrangements were made for tariff negotiations in order to replace the existing Brazilian Schedule of tariff concessions.

At their Thirteenth Session in November 1958 the Contracting Parties approved the text of a Protocol to embody the results of the tariff negotiations. This Protocol, which established the new Brazilian Schedule of tariff concessions and replaces the former Schedule, was opened for signature at Geneva on 31 December 1958.

The Protocol contains provision for the annexation to it of the results of negotiations which had not been completed by 31 December 1958.

The Protocol and the annexed Schedules of Concessions will be made available to the public on 21 January 1959.
