GENERAL AGREEMENT ON TARIFFS AND TRADE

GATT Liberalization Communiqué No. 76

FRANCE UNDERTAKES FURTHER LIBERALIZATION MEASURES

The French authorities have informed the GATT secretariat of further measures of liberalization which apply to imports of goods from countries outside the OECD area. The lists of products affected by these measures were set out in Notices to Importers dated 12 July and 11 October 1962. These additions to the liberalization measures taken earlier this year comprise a large number of products falling under some 150 tariff items in the French tariff. They include various products of the chemical and engineering industries, notably the total liberalization of automobiles and their accessories, bicycles, household appliances, and a number of medical appliances and equipment. In the agricultural sector, certain fruits and vegetables are included in these liberalization measures which follow measures taken under the common agricultural policy.

The new liberalization lists apply to products imported from the following countries which are contracting parties or have provisionally acceded to GATT:

Argentina  
Australia  
Brazil  
Burma  
Ceylon  
Chile  
Cuba  
Dominican Republic  
Haiti  
India  
Indonesia  
Israel  
Japan  
New Zealand  
Nicaragua  
Pakistan  
Peru  
South Africa  
Uruguay  
Yugoslavia
