GATT Training Programme for Government Officials: Fifteenth Group Starts Work

The fifteenth group of government officials holding fellowships granted by the United Nations under its Technical Assistance Programme has joined the GATT secretariat for a six-month period of training. Including the present group, nearly one hundred officials have to date undertaken this training course.

The training course is not limited to the operation of GATT; it includes also the general problems which have to be taken into account in the formation of an efficient commercial policy, especially in less-developed countries. The course is practical in its methods and the officials participate in the day-to-day work of the GATT secretariat, including attendance at the sessions of the Contracting Parties and committees or sub-groups established by them.

The group which joined the GATT secretariat in February 1963 comprises the following officials:

Mr. Lawrence G. ADEBESIN
