PART IV

TRADE AND DEVELOPMENT

Article XXXVI

Principles and Objectives

1. The contracting parties,

(a) recalling that the basic objectives of this Agreement include the raising of standards of living and the progressive development of the economies of all contracting parties, and considering that the attainment of these objectives is particularly urgent for less-developed contracting parties;

(b) considering that export earnings of the less-developed contracting parties can play a vital part in their economic development and that the extent of this contribution depends on the prices paid by the less-developed contracting parties for essential imports, the volume of their exports, and the prices received for these exports;

(c) noting, that there is a wide gap between standards of living in less-developed countries and in other countries;

(d) recognizing that individual and joint action is essential to further the development of the economies of less-developed contracting parties and to bring about a rapid advance in the standards of living in these countries;

(e) recognizing that international trade as a means of achieving economic and social advancement should be governed by such rules and procedures and measures in conformity with such rules and procedures as are consistent with the objectives referred to in this Article;

(f) noting that the CONTRACTING PARTIES may enable less-developed contracting parties to use special measures to promote their trade and development;

agree as follows.

2. There is need for a rapid and sustained expansion of the export earnings of the less-developed contracting parties.

3. There is need for positive efforts designed to ensure that less-developed contracting parties secure a share in the growth in international trade commensurate with the needs of their economic development.
4. Given the continued dependence of many less-developed contracting parties on the exportation of a limited range of primary products, there is need to provide in the largest possible measure more favourable and acceptable conditions of access to world markets for these products, and wherever appropriate to devise measures designed to stabilize and improve conditions of world markets in these products, including in particular measures designed to attain stable, equitable and remunerative prices, thus permitting an expansion of world trade and demand and a dynamic and steady growth of the real export earnings of these countries so as to provide them with expanding resources for their economic development.

5. The rapid expansion of the economies of the less-developed contracting parties will be facilitated by a diversification of the structure of their economies and the avoidance of an excessive dependence on the export of primary products. There is, therefore, need for increased access in the largest possible measure to markets under favourable conditions for processed and manufactured products currently or potentially of particular export interest to less-developed contracting parties.

6. Because of the chronic deficiency in the export proceeds and other foreign exchange earnings of less-developed contracting parties, there are important inter-relationships between trade and financial assistance to development. There is, therefore, need for close and continuing collaboration between the CONTRACTING PARTIES and the international lending agencies so that they can contribute most effectively to alleviating the burdens these less-developed contracting parties assume in the interest of their economic development.

7. There is need for appropriate collaboration between the CONTRACTING PARTIES, other intergovernmental bodies and the organs and agencies of the United Nations system, whose activities relate to the trade and economic development of less-developed countries.

8. The developed contracting parties do not expect reciprocity for commitments made by them in trade negotiations to reduce or remove tariffs and other barriers to the trade of less-developed contracting parties.

9. The adoption of measures to give effect to these principles and objectives shall be a matter of conscious and purposeful effort on the part of the contracting parties both individually and jointly.

Commitments

1. The developed contracting parties shall, to the fullest extent possible—that is, except when compelling reasons, which may include legal reasons, make it impossible—give effect to the following provisions:

(a) accord high priority to the reduction and elimination of barriers to products currently or potentially of particular export interest to less-developed contracting parties, including customs duties and other restrictions which differentiate unreasonably between such products in their primary and in their processed forms;

(b) refrain from introducing, or increasing the incidence of, customs duties or non-tariff import barriers on products currently or potentially of particular export interest to less-developed contracting parties; and

(c) (i) refrain from imposing new fiscal measures, and

(ii) in any adjustments of fiscal policy accord high priority to the reduction and elimination of fiscal measures, which would hamper, or which hamper, significantly the growth of consumption of primary products, in raw or processed form, wholly or mainly produced in the territories of less-developed contracting parties, and which are applied specifically to those products.

2. (a) Whenever it is considered that effect is not being given to any of the provisions of sub-paragraphs (a), (b) and (c) of paragraph 1, the matter shall be reported to the CONTRACTING PARTIES either by the contracting party not so giving effect to the relevant provisions or by any other interested contracting party.

(b) (i) The CONTRACTING PARTIES shall, if requested so to do by any interested contracting party, and without prejudice to any bilateral consultations that may be undertaken, consult with the contracting party concerned and all interested contracting parties with respect to the matter with a view to reaching solutions satisfactory to all contracting parties concerned in order to further the objectives of Article XXXVI. In the course of these consultations, the reasons given in cases where effect was not being given to the provisions of sub-paragraphs (a), (b) or (c) of paragraph 1 shall be examined.
(ii) As the implementation of the provisions of sub-paragraphs (a), (b) or (c) of paragraph 1 by individual contracting parties may in some cases be more readily achieved where action is taken jointly with other developed contracting parties, such consultation might, where appropriate, be directed towards this end.

(iii) The consultations by the CONTRACTING PARTIES might also, in appropriate cases, be directed towards agreement on joint action designed to further the objectives of this Agreement as envisaged in paragraph 1 of Article XXV.

3. The developed contracting parties shall:

(a) make every effort, in cases where a government directly or indirectly determines the resale price of products wholly or mainly produced in the territories of less-developed contracting parties, to maintain trade margins at equitable levels;

(b) give active consideration to the adoption of other measures designed to provide greater scope for the development of imports from less-developed contracting parties and collaborate in appropriate international action to this end;

(c) have special regard to the trade interests of less-developed contracting parties when considering the application of other measures permitted under this Agreement to meet particular problems and explore all possibilities of constructive remedies before applying such measures where they would affect essential interests of those contracting parties.

4. Less-developed contracting parties agree to take appropriate action in implementation of the provisions of Part IV for the benefit of the trade of other less-developed contracting parties, in so far as such action is consistent with their individual present and future development, financial and trade needs taking into account past trade developments as well as the trade interests of less-developed contracting parties as a whole.

5. In the implementation of the commitments set forth in paragraphs 1 to 4 each contracting party shall afford to any other interested contracting party or contracting parties full and prompt opportunity for consultations under the normal procedures of this Agreement with respect to any matter or difficulty which may arise.
Article XXXVIII

Joint Action

1. The contracting parties shall collaborate jointly, within the framework of this Agreement and elsewhere, as appropriate, to further the objectives set forth in Article XXXVI.

2. In particular, the CONTRACTING PARTIES shall:

(a) where appropriate, take action, including action through international arrangements, to provide improved and acceptable conditions of access to world markets for primary products of particular interest to less-developed contracting parties and to devise measures designed to stabilize and improve conditions of world markets in these products including measures designed to attain stable, equitable and remunerative prices for exports of such products;

(b) seek appropriate collaboration in matters of trade and development policy with the United Nations and its organs and agencies, including any institutions that may be created on the basis of recommendations by the United Nations Conference on Trade and Development;

(c) collaborate in analysing the development plans and policies of individual less-developed contracting parties and in examining trade and aid relationships with a view to devising concrete measures to promote the development of export potential and to facilitate access to export markets for the products of the industries thus developed and, in this connexion seek appropriate collaboration with governments and international organizations, and in particular with organizations having competence in relation to financial assistance for economic development, in systematic studies of trade and aid relationships in individual less-developed contracting parties aimed at obtaining a clear analysis of export potential, market prospects and any further action that may be required;

(d) keep under continuous review the development of world trade with special reference to the rate of growth of the trade of less-developed contracting parties and make such recommendations to contracting parties as may, in the circumstances, be deemed appropriate;

(e) collaborate in seeking feasible methods to expand trade for the purpose of economic development, through international harmonization and adjustment of national policies and regulations, through technical and commercial standards affecting production, transportation and marketing, and through export promotion by the establishment of facilities for the increased flow of trade information and the development of market research; and

(f) establish such institutional arrangements as may be necessary to give effect to the provisions and further the objectives of this Part.
NOTES AND SUPPLEMENTARY PROVISIONS

Ad PART IV

The words "developed contracting parties" and the words "less-developed contracting parties" as used in Part IV are to be understood to refer to developed and less-developed countries which are parties to the General Agreement on Tariffs and Trade.

Ad Article XXXVI

Ad paragraph 1

This Article is based upon the objectives set forth in Article I as it will be amended by Section A of paragraph 1 of the Protocol Amending Part I and Articles XXIX and XXX when that Protocol enters into force.

Ad paragraph 4

The term "primary products" includes agricultural products, vide paragraph 2 of the notes ad Article XVI, Section B.

Ad paragraph 5

A diversification programme would generally include the intensification of activities for the processing of primary products and the development of manufacturing industries, taking into account the situation of the particular contracting party and the world outlook for production and consumption of different commodities.

Ad paragraph 8

It is understood that the phrase "do not expect reciprocity" means, in accordance with the objectives of this Article, that the less-developed contracting parties should not be expected, in the course of trade negotiations, to make contributions which are inconsistent with their individual development, financial and trade needs, taking into consideration past trade developments.

This paragraph would apply in the event of action under Section A of Article XVIII, Article XXVIII, Article XXVIII bis (Article XXIX after the amendment set forth in Section A of paragraph 1 of the Protocol Amending Part I and Articles XXVII and XXX shall have become effective), Article XXXIII, or any other procedure under this Agreement.
Ad Article XXXVII

The other measures referred to in this paragraph might include steps to promote domestic structural changes, to encourage the consumption of particular products, or to introduce measures of trade promotion.
Statement by the Chairman for Inclusion in the Records of the Session

(Ref: Articles XXXVI:4 and XXXVIII:2(a))

The importance of trade in agricultural products to the less-developed contracting parties has been strongly emphasized throughout the discussions in the Legal and Institutional Committee. A proposal that there should be an appropriate paragraph in the commitments section of the Chapter specifically referring to the policies which should be followed by contracting parties in this field was discussed.

The CONTRACTING PARTIES have agreed to seek solutions to problems of agricultural trade in the course of the Kennedy Round and have agreed "to deal with the rules to govern, and the methods to be employed in, the creation of acceptable conditions of access to world markets for agricultural products in furtherance of a significant development and expansion of world trade in such products". Moreover, it had been specifically agreed at ministerial level that "in the trade negotiations every effort shall be made to reduce barriers to exports of the less-developed countries". It was therefore clear that the negotiations would reflect the great interest of less-developed countries in agricultural products.

Although a specific paragraph to cover all the specific concerns expressed by those less-developed contracting parties particularly interested in agricultural trade problems has not been included in Part IV, agricultural products are covered by the general provisions of Part IV. Moreover it is understood that at a later stage and in the light of the results of the forthcoming trade negotiations interested contracting parties will be entitled to revert to this matter in the Committee on Trade and Development.
