It was reported in GATT/CP/40/Add.9 that Greece signed the Protocol of Terms of Accession on 7 February. The Government of Greece has now advised that it has applied the General Agreement since 1 March 1950 but has taken action under paragraph 4 of the Annecy Protocol to withhold the tariff concessions which were initially negotiated with those contracting parties which have not submitted notification to the Secretary-General under paragraph 3 of the Annecy Protocol and with those acceding governments which have not signed the Annecy Protocol, and that these concessions will be withheld until the concessions granted by those governments are applied to the trade of Greece.
