The following letter, dated 8 June 1949, has been received from the head of the Haitian Delegation:

"In reply to your letters of 20 and 30 May 1949 relating to the report of Working Party 2 on procedure for notification of non-discriminatory measures under paragraph 11 of Article XVIII of the General Agreement, I have the honour to inform you that the Haitian State, pursuant to the Law of 16 February 1948, a copy of which I enclose, has reserved to itself the right to purchase, process and sell tobacco. This law, which is vital to the development of the tobacco industry in Haiti, is in strict conformity with Article XVIII, Paragraph 7 (a) (iii) of the General Agreement on Tariffs and Trade, as I had occasion to explain to a member of Working Party 2.

I wish to point out that my delegation has almost completed its negotiations and intends to leave Annecy about 16 June. I should therefore be grateful if Working Party 2 would get in touch with us before that date should it wish for any clarification of the law in question.

I think I should also inform you that the Haitian Republic has been obliged to approach the United Nations with a view to a general survey of the Republic's present economic and fiscal position and to
obtaining advice as to the measures to be adopted so that the country's economic development can be planned and established on a sound foundation.

Since the report of the United Nations ad hoc Commission has not yet been examined by the Haitian Government the latter is not in a position at present to notify Contracting Parties of any non-discriminatory measures that it may adopt in order to implement this plan. It is understood, however, that the Contracting Parties will receive notification of any non-discriminatory measure in accordance with paragraph 6 of Article XVIII of the General Agreement.
LAW

DUMARSAIS ESTIME,

PRESIDENT OF THE REPUBLIC

BY VIRTUE OF Articles 60, 61 and 84 of the Constitution;

BY VIRTUE OF the Laws of 5 August 1931 and 5 September 1934 on Tobacco;

WHEREAS it is expedient to encourage producers to expand tobacco-growing by offering them a remunerative price for this commodity;

AND WHEREAS it is unreasonable that a tobacco-producing country like Haiti should be obliged to import this commodity for the home-manufacture of cigars and cigarettes;

AND WHEREAS the most effective means of achieving this end is to establish a State Monopoly with the sole right to purchase and sell tobacco;

AND WHEREAS the exploitation of tobacco by the State will yield considerable revenue to the Public Treasury and will enable the Government to proceed with and intensify the economic development of the country;

In the light of the reports of the Secretaries of State for Finance, National Economy, Trade and Agriculture;

After due deliberation by the Council of Secretaries of State;

HAS PROPOSED
