CONTRACTING PARTIES
Sixth Session

Tariff Negotiations between the Union of South Africa and Germany

The Governments of the Union of South Africa and Germany have reported that bilateral tariff negotiations took place in August 1951 in accordance with the principles and procedures of the General Agreement on Tariffs and Trade, and, as a result thereof, they have agreed to accord to each other certain tariff concessions. They have requested that arrangements be made at the Sixth Session of the Contracting Parties for the results of these negotiations to be incorporated in their schedules to the General Agreement.

One copy of the note submitted by the two Governments, attaching the lists of concessions, is being distributed as a secret annex to this document to each contracting party and acceding government.

The communication from South Africa was received too late for inclusion in the Provisional Agenda. If this item is taken up at the Session the Contracting Parties may wish to consider whether the changes resulting from these negotiations should be formally incorporated into the Schedules by means of a special protocol of modifications or by some other procedure.
