SUMMARY RECORD OF THE SEVENTH MEETING

Corrigendum

Page 3

Paragraph 3.

Line 6 should read:

"finally resolved at the beginning of 1952 if it..."

The last two lines should read:

"United Kingdom delegate to investigate whether it would not be possible at the present time to take provisional administrative measures which would have the same effect".

Paragraph 5 should read as follows:

"Mr. Aziz AHMAD (Pakistan) drew attention to the fact that the matter under consideration before the Contracting Parties was whether the important proposal submitted by the French Delegation should be admitted on the agenda of this session or not. He stated that if the purpose in admitting this proposal to the agenda was that the French Delegation would give the Contracting Parties further information and details in regard to their proposal, speaking for their own delegation, they had no objection to it. If, on the other hand, the acceptance of this item on the agenda of the present session meant that the item would be discussed by the Contracting Parties, he pointed out that like the Delegation of the United States, their delegation, and possibly other delegations had had no opportunity to obtain the instructions of their Government, and would, therefore, not be able to participate in a responsible discussion of this item. He further added that in view of the absolute lack of instructions in regard to this item, their delegation regretted they could not even participate in a discussion for the terms of reference of a Working Party if it was proposed to set up such a Working Party to examine these proposals"
