Tariff Negotiations

WORKING PARTY ON UNESCO
(Document submitted by the Delegate of Chile)
Proposed addition to Document GATT/TN.1/C/5.

DRAFT AGREEMENT ON TARIFF SYSTEM APPLICABLE TO THE IMPORTATION
OF EDUCATIONAL, SCIENTIFIC AND CULTURAL MATERIALS

ARTICLE IV

1) The Contracting States recognise that dumping, by which printed books or periodicals of one country are introduced into the commerce of another country at less than their normal value, is to be condemned if it causes or threatens material injury to an established publishing industry in the territory of a Contracting State or materially retards the establishment of a domestic publishing industry. For the purposes of this Article, printed books or periodical publications are to be considered as being introduced into the commerce of an importing country at less than their normal value, if the price of the printed books or periodical publications exported from one country to another, is less than the comparable price, in the ordinary course of trade for the like books or periodical publications when destined for sale in the exporting country.

2) In order to offset or prevent dumping, a Contracting State may levy on any dumped printed books or periodical publications an anti-dumping duty on printed books or periodical publications, not greater in amount than the margin of dumping in respect of such articles. For the purposes of this article, the margin of dumping is the price difference determined in accordance with the provisions of paragraph 1.
