Tariff Negotiations

TARIFF NEGOTIATIONS COMMITTEE

Corrigendum to the Summary Record of the Third Meeting

Page 4, paragraph 1.(b), line 8:
After the word "necessary", insert the following:
"He also stressed that the suggestion for two different dates, at which the Geneva schedules and the Annecy schedules respectively would become open to review, did not mean that the existing contracting parties would recover their freedom vis-a-vis the acceding countries in respect of the Annecy schedules as from 1st January 1951: in fact, their obligations in respect of these schedules would remain firm for as long as the corresponding obligations of the acceding countries."

Page 6, Mr. Dunaway (Liberia)'s statement:
A period should be placed at the end of the seventh line and the last two lines should read as follows:
"His Government did not believe that the process should be made unnecessarily complicated by modification of the Annecy schedules within a year or six months of their effective date, and if this procedure were decided upon they would probably find it advisable to defer adherence to GATT until 1951 or until the ITO had come into being."
