Tariff Negotiations
Torquay

REQUESTS FOR TARIFF CONCESSIONS

The time-table laid down in the Memorandum on Tariff Negotiations (GATT/CP/43) gave 15 June as the last date by which each government was to transmit to each other participating government the final list of tariff concessions which it requests in the Torquay negotiations. Copies of all lists were to be sent to the Secretariat for general distribution.

Up to and including 3 July, copies of lists have been received from the following governments:

- Australia
- Austria
- Benelux
- Ceylon
- Czechoslovakia
- Germany
- India
- Italy
- New Zealand
- Norway
- Sweden
- United Kingdom

The request lists received are given below. Some of the countries have indicated that their requests have been transmitted to all the governments with which they intend to negotiate, but it may be that some of the other countries named will have additional lists to submit in the near future.

1/ Copies of lists have been received, but they are lists of products and do not indicate the tariff concessions requested. The Government of Austria hopes to advise the additional information by 15 July.

2/ Three lists have been received. The Governments of Benelux have asked France, Italy, United Kingdom and United States for an extension of time until 15 July.

3/ The list does not include requests for the rebinding of existing schedules.
The Government of Greece has advised that a request for an extension of time until the end of June has been addressed to the diplomatic representatives in Athens of the governments to which Greece intends to submit requests.

The Government of Burma does not intend to make requests, but is prepared to negotiate with governments which make requests on Burma.

The Government of Indonesia has been unable to transmit its requests within the time-limit for reasons which were stated in GATT/TN.2/8/Add.3.

Copies of lists have not yet been received from the United States, but it is understood that some at least of the requests have been handed to the governments concerned.

A communication has been addressed to all other participating governments reminding them that requests should have been transmitted by 15 June and that until this is done the preparation of offers cannot be completed.

The immediate provision of request lists is the basis of the programme for the Conference, and failure to keep to the time-table will delay the opening of negotiations. Accordingly, governments which have not transmitted all of their requests lists are urged to do so with all possible expedition.
