Additional Commodities Proposed for Study

In paragraph 3 of the Work Programme (IC/WPl/4/Corr.1) members of the Working Party and other contracting parties were invited to submit by the middle of January proposals for additional commodities to be examined by the Working Party.

The following suggestions have been received:

**Australia:** Wheat; barley; oats; aluminium and aluminium copper - partly refined and refined metal; zinc - ores and concentrates and refined metal; ilmenite and concentrates; tungsten ore and concentrates.

The Delegation has indicated that the list does not necessarily exhaust the products which Australia would wish to have examined.

**Canada:** Aluminium; lead.

The Canadian Delegation has indicated that it will review the matter in the light of the Working Party's progress and might subsequently ask it to examine additional products, e.g. zinc and copper.

**Chile:** Lentils; citrus fruit; wool; molybdenum and zinc concentrates; ores and concentrates of copper, gold and silver; copper wire; bars; iron.

These items have been suggested for examination in the first instance, further products may be submitted later.

**India:** Hides and skins; raw wool; oil cakes; manganese ore; iron ore.

**Union of South Africa:** Pineapples; preserved fruit; wine and wine spirit; wattle bark extract.

---

1The Government of India has submitted a general note on the effects of the Association of Overseas Territories on India's exports. The note will be circulated separately to the contracting parties.
The United Kingdom: Maize; pepper; cloves; kapok; citrus fruit; dried peas and beans; canned pineapples; pyrethrum extract; cassava; lead ore and concentrate.

In the view of the United Kingdom Delegation, there are other commodities which also merit consideration, and a list of these will be submitted later.
