The Government of the Federal Republic of Germany has notified the secretariat that the liberalization proposals contained in SECRET document VA2-421/59, circulated to contracting parties during the fourteenth session, need no longer retain the classification of SECRET.

Attached for the information of contracting parties is the Decision on German Import Restrictions, approved by the CONTRACTING PARTIES at their meeting on 30 May 1959 (SR 14/11), together with the complete Annexes A, B, C, D and E referred to in that Decision.
DECLARATION

CONSIDERING THAT

(1) at their twelfth session the CONTRACTING PARTIES, on the basis of the findings of the International Monetary Fund regarding monetary reserves and balance of payments of the Federal Republic of Germany, decided that the Federal Republic was no longer entitled to maintain import restrictions under Article XII;

(2) the Federal Republic contends that it is entitled to maintain restrictions on imports of products specified in the Agricultural Marketing Laws because (a) the German Marketing Laws impose on the German executive mandatory requirements for the application of restrictions on imports and (b) in any case this legislation does not need to impose a mandatory requirement in order to be covered by paragraph 1(a) (ii) of the Torquay Protocol; but most contracting parties do not accept this contention;

(3) the Federal Republic believes that the sudden removal of restrictions on certain imports both in the agricultural and industrial fields would cause serious injury to the domestic industries concerned which could be avoided if the removal of the restrictions were spread over a period of time;

TAKING NOTE THAT

(1) the Federal Republic, since the date of the findings and Decision referred to above, has consulted with the countries principally concerned and has from time to time proceeded by successive stages to reduce the number of import restrictions still maintained by it;

(2) the Federal Republic intends to take the further measures of liberalization set out in Annex A to this Decision;

(3) restrictions on products listed in Annex C will be progressively relaxed and liberalized in accordance with the terms and conditions set forth in that annex;

(4) the Federal Republic is ready to make all possible efforts to reduce the number of restrictions still maintained and, therefore, to lessen the scope of the problem;

(5) in particular, when reviewing the Marketing Laws, the Federal Republic will seek to ensure that any measures applied to products covered by these laws are consistent with the General Agreement;
The CONTRACTING PARTIES, pursuant to paragraph 5 of Article XXV of the General Agreement

DECIDE THAT:

Without prejudice to the legal questions referred to in the second paragraph of the Preamble to this Decision and subject to the conditions and procedures set out hereunder, the Federal Republic of Germany may, notwithstanding the provisions of Article XI, maintain restrictions on products enumerated in Annexes B, D and E to this Decision;

The conditions and procedures referred to above are:

(1) Restrictions maintained on the products listed in Annex D shall be so administered as to impose no practical impediment to imports from any contracting party to the General Agreement - that is to say - that these products shall be the subject of unlimited global tender arrangements without restrictions as to quantity or source of supply.

(2) Restrictions on the products covered by this Decision shall be subject to the following terms and conditions:

(a) The Government of the Federal Republic, in the application of the Marketing Laws and within the limitations imposed by those laws, will endeavour to establish conditions which will afford increasing opportunities of access to the German market for the products concerned. In this connexion, the Federal Republic will accord sympathetic consideration to representations made by interested contracting parties. The Federal Republic will keep the restrictions on products in Annex E under constant review with the object of liberalizing as many as possible of the products on the de facto basis set out in paragraph (1) of this Decision.

(b) As regards the products listed in Annex B the Federal Republic will keep the restrictions on these products under constant review and will use its best endeavours to remove such restrictions at the earliest possible date, and meanwhile, endeavour to improve conditions of access to the German market for all contracting parties, according sympathetic consideration to such representations as interested contracting parties may make to the Federal Republic.

(c) The restrictions covered by this Decision shall be administered in accordance with the relevant provisions of the General Agreement. As envisaged in paragraph 2 (d) of Article XIII, in cases in which a quota is allocated among supplying countries, the Federal Republic shall consult with all other contracting parties having a substantial interest in supplying the product concerned with respect to the allocation of shares in the quota.
(3) The Federal Republic shall consult with the CONTRACTING PARTIES annually regarding the application of the Decision, for the first time at the fifteenth session, and in particular report on the progress achieved in the relaxation or elimination of the restrictions maintained on the products listed in Annexes A to E.

(4) The present Decision shall remain in effect until the close of the first regular session of the CONTRACTING PARTIES after it shall have been in effect for three years.

THE CONTRACTING PARTIES DECLARE

that this Decision shall not preclude the right of affected contracting parties to have recourse to the appropriate provisions of Article XXIII.

The Government of the Federal Republic of Germany undertakes to liberalize the products listed in this Annex in accordance with the following terms and conditions:

(a) it will develop and apply appropriate measures designed to ensure the elimination of the restrictions within a period of five years;

(b) it will grant to other contracting parties a fair and reasonable share of the market for the product concerned;

(c) it will increase the global quotas granted under the present system to countries outside the OEEC area, in accordance with the programme outlined for each product below, with a view to the progressive relaxation of each restriction during the period referred to in subparagraph (a) above and to the progressive elimination of the existing discrimination during that period;

(d) it will submit annual reports to the CONTRACTING PARTIES in such detail as may be required, and setting out:

(i) the progress made in the relaxation of the restriction authorized;

(ii) the result of the measures taken to ensure the elimination of the restriction;

(iii) any change it may be proposing in the method of application of the restriction; and

(iv) if it is found necessary to maintain the restriction, the reasons for such maintenance.

On the basis of the reports referred to in subparagraph (d) above and of any other data which may be submitted to them by other contracting parties, the CONTRACTING PARTIES shall review annually the operation of the restrictions to which this Annex applies.
