GENERAL AGREEMENT ON
TARIFFS AND TRADE

NOTIFICATIONS OF IMPORT RESTRICTIONS
APPLIED INCONSISTENTLY WITH THE PROVISIONS
OF GATT AND NOT COVERED BY WAIVERS

Addendum

FEDERAL REPUBLIC OF GERMANY

1. In response to the request contained in GATT/AIR/713, the enclosed list of German import restrictions applied as of June 1969 is submitted.

2. Part I of the list refers to restrictions which are not covered by the terms of the Protocol of Provisional Application of the General Agreement and Part II contains those restrictions which, in the opinion of the Federal Government, are admissible under the provisions of the Torquay Protocol.

3. Part I of the list is sub-divided by types of restriction as follows:

   A. Products for which import licences are granted under bilateral quotas or under global quotas.

   B. Products for which import licences are granted under global quotas.

   C. Products for which import licences are granted following collective tenders without limits in quantity or value. Under this procedure most of the imports are admitted without quantitative restriction. Only for reasons of market disruption have quotas been agreed with some contracting parties concerned.

4. For the products mentioned in Part II import licences are granted in accordance with quotas agreed with the contracting parties concerned or under global quotas.

5. The restrictions in respect of products under tariff items 1210 ex and 3501 ex listed in Section A as well as products listed in Sections B and C apply only to imports from countries other than those in List A. Other restrictions apply to imports from all non-EEC countries.

1 For last previous notification of restrictions applied by the Federal Republic of Germany see L/2981/Add.11.

2 List A comprises "the area of former OEEC members."
6. No data can as yet be furnished with respect to the duration of the restrictions. It might be mentioned, however, that quantitative restrictions on agricultural goods are being withdrawn in connexion with the development of the common agricultural policy of the European Economic Community and that the import restrictions for industrial goods are a matter of bilateral consultations with the contracting parties concerned.
