GENERAL AGREEMENT ON
TARIFFS AND TRADE

GENERALIZED SYSTEM OF PREFERENCES

Notification by Finland

Addendum

The following communication has been received from the delegation of Finland:

Upon the instructions of my Government I have the honour to communicate to you the following addenda to the Finnish Scheme of Generalized Preferences in favour of the Developing Countries:

1. Passion fruit has been added to the list of goods under BTN Chapters 1-24 eligible for GSP treatment in Finland (Annex I). The decision refers to the headings 08.07-08.12 and 20.04. Thus, passion fruit should be added to the list of "tropical fruit" contained in the last paragraph of Annex I.

2. The list of goods under BTN Chapters 25-99 not eligible for GSP treatment in Finland (Annex II) has been amended as follows:
   (a) Under the heading 55.09 the importation of unbleached and non-mercerized fabrics has been made duty free as from 1 January 1973. The heading should now read as follows: "55.09 Other than unbleached and non-mercerized fabrics, which do not here include cord fabric or tarpaulin".
   (b) The heading 90.26, which was originally left out by mistake, has been added to the list as from 1 May 1972.

3. The requirements concerning certificates of origin to be notified to the Finnish Board of Customs have been changed to the effect that the names of the authorized signatories are no longer needed. Thus the name and address of the governmental authority together with specimen impressions (paragraph 7(b)) will suffice. Accordingly, paragraph 7(a) should read as follows:

"to notify to the Board of Customs (Erottajankatu 2, 00120 Helsinki 12, Finland) the name and address of the governmental authority which is empowered to issue GSP certificates of origin".
