The following communication has been received from the delegation of the Commission of the European Communities.

I have the honour to refer to the Decision of the CONTRACTING PARTIES of 25 June 1971 concerning the grant of preferential treatment to products originating in developing countries and territories, and to the notification by the European Communities, dated 7 July, concerning the entry into force of the generalized tariff preferences accorded by the European Economic Community (L/3550 of 16 July 1971).

In pursuance of that Decision I am sending you herewith, for the information of the contracting parties, the text of a regulation adopted by the Council of the European Communities on 7 May 1975 concerning the application of this generalized tariff preference scheme by the enlarged Communities, as from 1 July 1975 and until 31 December 1975, in respect of certain products falling within Heading Nos. 09.04 and 15.07 of the Common Customs Tariff.

The selection of products included in the regulation shows that, from the first stage of the effective phase of the multilateral trade negotiations, it is the Community's intention to translate into practice the commitment that it undertook at Tokyo to treat tropical products as a special and priority sector.
REGULATION (EEC) No 1213/75 OF THE COUNCIL
of 7 May 1975

establishing in respect of certain products falling within heading Nos 09.04 and 15.07
of the Common Customs Tariff a scheme of generalized preferences in favour of
developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the
European Economic Community, and in particular
Article 43 thereof;

Having regard to Council Regulation (EEC) No
1059/69 (*) of 28 May 1969 laying down the trade
arrangements applicable to certain goods resulting
from the processing of agricultural products, and in
particular Article 12 thereof;

Having regard to the proposal from the Commission;

Having regard to the Opinion of the European
Parliament;

Whereas, within the context of UNCTAD, the
European Economic Community offered to grant
tariff preferences on certain processed agricultural
products of Chapters 1 to 24 of the Common
Customs Tariff which originate in developing
countries; whereas the preferential treatment
proposed in that offer consists, in respect of certain
goods which are subject to the trade arrangements
laid down in Regulation (EEC) No 1059/69, of a
reduction in the fixed component of the charge
applicable to such goods by virtue of that Regulation,
and, in respect of products which are subject to the
single customs duty, of a reduction in such duty;
whereas preferential imports of the products
concerned could be effected without quantitative
restrictions;

Whereas the offer made by the Community includes
a clause stating that the Community drew up the
offer on the assumption that all the main
industrialized countries which are members of the
OECD would participate in granting preferences and
would make similar efforts in this direction; whereas,
moreover, it is evident from the conclusions worked
out in UNCTAD that this offer, while being of a
temporary nature, does not constitute a binding
commitment and, in particular, may be withdrawn
wholly or in part at a later date; whereas this
possibility may be adopted, inter alia, with a view to
remedying any unfavourable situations which might
arise in the associated countries following the
implementation of the generalized preference scheme;

Whereas, moreover, the conference of the Heads of
State or of Government of the Member States and the
States acceding to the European Communities held in
Paris from 19 to 21 October 1972 invited the
Community institutions and the Member States
progressively to adopt an overall policy of
development cooperation on a world-wide scale
comprising in particular the improvement of
generalized preferences with the aim of achieving a
steady increase in imports of manufactures from the
developing countries;

Whereas, in accordance with Protocol 23 to the Act
of Accession (†), the generalized tariff preference
scheme became fully applicable in the new Member
States on 1 January 1974;

Whereas, for certain products of Chapters 1 to 24 of
the Common Customs Tariff, this scheme would,
however, involve the application in the new Member
States in 1975 of customs duties higher than or very
close to those which will be applied by the new
Member States to non-member countries in general
on the basis of the provisions of the abovementioned
Act; whereas this situation would comply neither
with the spirit nor with the very nature of the
generalized preference scheme; whereas, in order to
maintain an equivalent preferential margin for these
products also, reduced customs duties should be
applied to them, in accordance with detailed rules
based on the principle of maintaining, in the new
Member States, a preference proportional to that
which exists between the duties of the Common
Customs Tariff and the duties given in Annex A to
this Regulation; whereas, with a view to granting the
beneficiary developing countries the best possible
treatment, in accordance with the objectives of the
preference scheme, the duties given in the
abovementioned Annex A should also be applied
wherever the duties calculated according to the

Whereas it is expedient, therefore, that the Community should authorize the importation of the products referred to in Annex A, originating in the countries and territories listed in Annex B, subject to the customs duties given in respect of each of them, as from 1 July 1975; whereas the benefit of such preferential terms should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 of 27 June 1968 on the common definition of the concept of the origin of goods; 

Whereas measures should be provided for which will enable any serious disruption in any sector of the economic activity of the Community to be avoided; whereas, to this end, the Commission should be empowered to reintroduce partially or wholly the levying of customs duties in order that such disruption may be avoided;

Whereas the Commission must be able to have access to information concerning imports effected within the framework of generalized preferences; whereas, to this end, Member States shall inform the Commission every three months of imports actually effected, classified by origin,

HAS ADOPTED THIS REGULATION:

**Article 1**

1. From 1 July to 31 December 1975, Community imports of the products listed in Annex A shall benefit from the customs duties specified for each product.

On importation into Denmark, Ireland and the United Kingdom, there shall be applied to the abovementioned products the customs duties determined by multiplying, by a coefficient equal to the margin of preferences existing between the duties given in Annex A and the Common Customs Tariff duties applicable, the duties obtained by reducing the difference between the lowest duty applied on 1 January 1972 to the developing countries set out in Annex B and the Common Customs Tariff, by 60%.

However, the duties given in Annex A shall be applied where the duties resulting from the abovementioned calculation are higher than them.

2. The treatment provided for in paragraph 1 shall be enjoyed solely by products originating in the countries and territories listed in Annex B.

For the purposes of the application of this Regulation, the concept of originating products shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

**Article 2**

When products benefiting from the treatment provided for in Article 1 are imported in the Community in such quantities or at such prices that Community producers of products similar to or in direct competition with them suffer or are likely to suffer from serious disadvantage, the levying of customs duties may be reintroduced in whole or in part on the products in question in respect of the countries or territories which are the cause of the disadvantage. Such measures may also be taken in the case of actual or potential serious disadvantage in a single region of the Community.

**Article 3**

1. The Commission may decide, by means of a Regulation, to reintroduce the levying of customs duties for a specified period, in order to ensure that Article 2 is applied.

2. In the event of such action being requested by a Member State, the Commission shall decide within a period of not more than 10 working days after the request has been received and shall inform the Member States of this decision.

3. Any Member State may refer to the Council the measure taken by the Commission, within a period of not more than 10 working days after it has been informed thereof. The fact that the matter is referred to the Council shall not cause the measure to be suspended. The Council shall meet immediately. It may, by acting on a qualified majority, amend or rescind the measure in question.

**Article 4**

Articles 2 and 3 shall not prejudice the implementation of the safeguard clauses adopted in pursuance of the common agricultural policy under Article 43 of the Treaty and of those adopted in pursuance of the common agricultural policy under Article 113 of the Treaty.

Article 5

Member States shall inform the Commission every three months of imports effected under this Regulation, classified by origin.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 7 May 1975.

For the Council
The President
G. FITZGERALD
