The following communication, dated 18 March 1976, has been received from the Permanent Mission of Canada.

My authorities have instructed me to notify you, for the information of the Contracting Parties, that the Canadian quota on eggs and egg products referred to in the previous Canadian notification (11 July 1975; L/4207) has been increased for the calendar year 1976 as follows: (statistics given in cases of thirty dozen shell egg equivalents) — (1) shell eggs increased to 100,000 cases; (2) egg powder increased to 91,073 cases; and (3) egg mélange increased to 60,789 cases. In arriving at this decision account was taken by the Canadian authorities of suggestions made by the GATT Working Party on the Canadian import quota on eggs.
