URUGUAY - IMPORT SURCHARGES

The following letter and accompanying documents have been received from the Permanent Delegation of Uruguay.

I have the honour to forward to you herewith a photocopy of the text of the Decree of 2 December 1975 by which the Uruguayan Government established an additional charge of 7 per cent on imports of goods of all kinds, including those by the public sector, with the sole exception of those mentioned in Article 2.

I also enclose a photocopy of the text of Circular No. 705 of the Central Bank of Uruguay concerning the implementation of the above-mentioned Decree.
HAVING REGARD to Article 2 of Act No. 12,670 of 17 December 1959, empowering the Executive to establish surcharges on the import of merchandise, articles, products and goods that are non-essential, of a luxury character or in competition with domestic industry;

WHEREAS I. It is clear from the context and from the parliamentary antecedents of the above-mentioned Act that the surcharges operate as functional control mechanisms, acting as a brake or counter-weight to avoid or prevent undesirable disequilibria in the trade balance;

II. That at the present time, as a result of well-known economic events at world level, our balance shows an appreciable deficit which it is appropriate to control;

III. That the concept of non-essential mentioned in the legal provision under reference is a notion of a relative character since, as the Executive has stated on numerous occasions, various factors have to be taken into account in the relevant determination, for example, consideration of the product as such, market needs, the exchange situation and the trend in the trade balance and balance of payments, inter alia;

The President of the Republic hereby decrees as follows:

ARTICLE 1 - A surcharge of 7 per cent shall be established in respect of the import of goods of all kinds, including those by the public sector, with the sole exception of those mentioned in the following Article.

ARTICLE 2 - The following shall be exempt from the surcharge established in the preceding Article:

(a) Imports exempted from surcharge by a specific legal provision;

(b) Imports of goods classified as capital goods in terms of Decree No. 110/975 of 22 May 1975;

(c) Imports of agricultural inputs included in the list annexed to the present Decree, established on the basis of the NADI classification;

(d) Imports of kits for the assembly in the country of tractors for agricultural use and Category "A" vehicles as referred to in Article 1 of Decree No. 128/970 of 13 March 1970 (lorries);
(e) Imports of partially assembled Diesel engines, kits and parts of kits for such engines, intended for assembly plants for Diesel engines of between 40 h.p. and 180 h.p. as referred to by Decree No. 406/975 of 20 May 1975;

(f) Imports effected under the régime of temporary admission, replacement declarations and without any exchange operation.

**ARTICLE 3** - In cases where the goods to be imported are currently subject to surcharge, the provisions of Article 1 of the present Decree shall operate in a cumulative manner.

**ARTICLE 4** - The exemption from surcharges granted by special regulations in respect of the import of certain specified goods, shall not extend to the surcharge established by Article 1 of this Decree.

**ARTICLE 5** - The surcharge established by Article 1 shall be collected by the Central Bank of Uruguay on the basis of the assessment made at the time of the import declaration. The said surcharge shall not be the subject of any re-assessment and shall be refunded only in the event of complete cancellation of the declaration.

**ARTICLE 6** - The Central Bank of Uruguay shall establish implementing provisions for the present Decree.
