- Czechoslovakia

The acceptance was accompanied by the following declaration concerning the declaration to the Agreement made by the Federal Republic of Germany on 17 December 1979:

In connection with the Declaration of the Government of the Federal Republic of Germany concerning the expansion of this Agreement on West Berlin, the Czechoslovak Government declares that it takes cognizance of it only to such a degree and to such an extent as compatible with the Quadripartite Agreement of 3 September 1971. ¹

¹Communication received on 28 February 1983 from the Mission of the United Kingdom on behalf of the Governments of France, United Kingdom and United States:

On behalf of the Governments of France, the United States of America and the United Kingdom of Great Britain and Northern Ireland, I have the honour to refer to the communication of 15 November 1982 of the Government of Czechoslovakia concerning the extension of the Agreement on Technical Barriers to Trade done at Geneva on 12 April 1979 to the Western Sectors of Berlin (notification GLI/270 of 22 November 1982).

With regard to the communication referred to above, the three Governments reaffirm that States which are not parties to the Quadripartite Agreement are not competent to comment authoritatively on its provisions.

The three Governments do not consider it necessary, nor do they intend to respond to any further communication on this subject from States which are not parties to the Quadripartite Agreement. This should not be taken to imply any change of the position of the three Governments in this matter.

²Communication received on 2 March 1983 from the Permanent Mission of the Federal Republic of Germany:

I have the honour to refer to the communication of 15 November 1982 of the Government of Czechoslovakia concerning the extension of the Agreement on Technical Barriers to Trade done at Geneva on 12 April 1979 to Berlin (West) - (notification GLI/270 of 22 November 1982).

In this connection I have the honour to refer to the letter of 24 February 1983 sent to you by the United Kingdom Mission, Geneva, on behalf of the Governments of France, the United Kingdom and the United States and to state that the Government of the Federal Republic of Germany supports the position set forth in this letter.

The Government of the Federal Republic of Germany wishes to point out that the absence of a response to further communications of a similar nature should not be taken to imply any change of its position in this matter.

  The acceptance was accompanied by the following communication:  
  24 July 1987

The Government of Mexico considers that national legislation relating to technical regulations, standards and certification systems, specifically the General Law Concerning Standards and Weights and Measures, the Law Concerning Animal and Plant Health and the General Law Concerning Health, published in the Diario Oficial de la Federación (Official Journal) on 7 April 1961,

1 See footnote 1 on page 4  
2 See footnote 2 on page 4
13 December 1974 and 7 January 1986, respectively, are in keeping with the provisions of the Standards Code.

The Government of Mexico considers that Mexico is a developing country within the meaning of Article 12 of the Standards Code, and that consequently the provisions of that Article are fully applicable to Mexico.

I reiterate the Mexican Government’s firm intention to observe scrupulously the undertakings stemming from the Agreement which we have accepted; nevertheless, in the event that difficulties should arise in the future, my country’s Government trusts that we may turn to the governments of the contracting parties and to the GATT secretariat itself to receive not only due understanding but also the technical and other support, co-operation and assistance to enable Mexico fully to observe the undertakings into which we have entered today.

E. Agreement on Interpretation and Application of Articles VI, XVI and XXIII of the General Agreement on Tariffs and Trade

- Australia
  28 September 1981

The acceptance was accompanied by the following communication:

It is a matter of regret to the Government of Australia that participants in the MTN were unable to develop more effective disciplines on the use of agricultural export subsidies. The Agreement on the Interpretation and Application of Articles VI, XVI and XXIII of the GATT is heavily imbalanced as between its provisions relating to agricultural and to industrial products.

Notwithstanding the disappointing result, the Government of Australia has decided to accept the Agreement on the expectation that within a reasonable time GATT contracting parties will develop disciplines relating to agricultural export subsidies which are substantially equivalent to those adopted in respect of export subsidies on products other than certain primary products (as defined in the Agreement).

1On 17 December 1979 Switzerland accepted the Agreement, without prejudice to acceptance of lists not yet approved.

2On 17 December 1979 the United States accepted the Agreement, subject to satisfactory completion of negotiations on entity coverage under the Agreement.
In respect of Australian measures which may exist within the purview of the illustrative list at the time of acceptance by the Government of Australia of the Agreement, and where major practical difficulties stand in the way of the Government of Australia bringing such measures promptly into conformity with the Agreement, the Government of Australia will, without prejudice to the rights of other signatories under the General Agreement or this Agreement, examine methods of bringing these measures into conformity within a reasonable time.

In any event the Government of Australia will be reviewing its position in relation to the Agreement in the light of experience.

The acceptance was accompanied by the following declaration:

The Government of the Republic of Indonesia recognizes that it is desirable to restrict export subsidies. Therefore, the Government of the Republic of Indonesia is committed to reduce or eliminate export subsidies on products other than certain primary products, whenever the use of such subsidies is inconsistent with its competitive or development needs. Accordingly, the Government of the Republic of Indonesia has decided to eliminate the Sertifikat Ekspor Program by 1 April 1986. The Government of the Republic of Indonesia
had decided to ensure, no later than 1 April 1990, that the interest rate for short-term export financing is consistent with the first paragraph of item (k) of the illustrative list of export subsidies and to immediately eliminate any export subsidy element in duty remission or exemptions for non-physically-incorporated inputs imported into export processing zones.

The Government of the Republic of Indonesia will not maintain any programme inconsistent with the provisions of the GATT Code on Subsidies. Furthermore, as from the date of Indonesia's accession to the Code, the Government of the Republic of Indonesia will not maintain any other programme, nor institute any new programme, that is an export subsidy as enumerated in the illustrative list annexed to the Code.

In light of the above, the Government of the Republic of Indonesia understands that it will not be subject to the review procedures mentioned in paragraph 8 of Article 14 of the Code until 1 April 1990.

- Israel

The acceptance was accompanied by the following declaration:

Pursuant to Article 14(5) of the Agreement on Interpretation and Application of Articles VI, XVI and XXIII of the GATT (the Subsidies Code), the Government of Israel, on acceding to the Subsidies Code commits itself as follows:

I. With regard to exports of products other than certain primary products (see note 1), Israel will not institute any new export subsidy programmes, and will not increase the level of subsidization (see note 2) in the following major programmes for encouraging such exports above their level as existed on 11 July 1984:

- programmes for financing exports or processing for exports

(a) export shipment fund
(b) export production fund
Moreover, Israel will eliminate the subsidy elements in these programmes with regard to exports of products other than certain primary products (see note 1) as follows:

- with regard to the export shipment fund and the foreign currency portion of the export production fund, the Government of Israel will continue its current practice of providing no export subsidy elements;

- with regard to local currency financing under the export production fund Israel will freeze the export subsidy element for four years from the date of accession to Subsidies Code at the level as of 11 July 1984, and will eliminate the export subsidy element by six years from the date of accession to the Subsidies Code;

- with regard to the imports for export fund, Israel will freeze the export subsidy element for one year from the date of accession to the Subsidies Code, at the level of 11 July 1984, and will eliminate the export subsidy element by two years from the date of accession to the Subsidies Code;

- with regard to the medium term capital goods export credits or any other officially-sanctioned export financing with a maturity of two years or more, Israel will apply the interest rates provisions of the arrangement on guidelines for officially supported export credits of the Organization for Economic Cooperation and Development for any loans granted on and after the effective date of accession to the Subsidies Code.

3. In light of the above, the Government of Israel understands that it will not be subjected to the review procedures provided in paragraph 8 of Article 14 of the Subsidies Code for the period of its commitment.
4. Whenever special circumstances so require, including balance-of-payments circumstances, Israel will consult with other parties concerning its commitment.

Note 1: "Certain primary products" shall be defined in accordance with footnote 29 to Article 9 of the Subsidies Code.

Note 2: "Level of Subsidization" shall be defined, for the purposes of this commitment, as the percentage point spread between the lending rates for each programme and the rates which the Government of Israel (or special institutions controlled by and/or acting under the authority of the Government of Israel) actually has to pay for the funds so employed (or, if applicable, would have to pay if it borrowed on international capital markets in order to obtain funds of the same maturity and denominated in the same currency as the programme funds).

  Acceptance 15 March 1985
As from the date of Philippine accession to the Agreement, the Government of the Philippines will not maintain any other programme, nor institute any new programme, that is an export subsidy as enumerated in the illustrative list annexed to the Agreement.

In the light of the above, the Government of the Philippines understands that it will not be subject to the review procedures mentioned in paragraph 8 of Article 14 of the Code for the period of five years.

- Portugal

The acceptance was accompanied by the following communication:

The Portuguese Government has already begun the process of revising its legislative system and administrative procedures in order to make them consistent with the provisions of the Agreement and with the practices enumerated in the annexes thereto.

Portugal's new fiscal régime which is to be implemented is part of the above-mentioned revision process. It comprises extensive reforms, such as those necessary for the introduction of value-added tax, and a transitional period will be needed for adaptation of laws, regulations and administrative procedures.

During this transitional period the Portuguese Government will not apply any new export incentive programmes not consistent with the Agreement and will refrain from enlarging or intensifying existing schemes that might not be consistent with the Agreement.

In accepting the Agreement, the Portuguese Government reserves its position in regard to application of the provisions...
of paragraph 5(a) of Article 19 to the extent that, without prejudice to the rights and obligations of other signatories under the General Agreement or the present Agreement, it will take all necessary measures to ensure, within a reasonable period and not later than 31 December 1985, the conformity of its laws, regulations and administrative procedures with the provisions of the said Agreement.

### H. Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade

- **Argentina (subject to ratification)**
  - The acceptance was accompanied by the following communication:

  In connection with Argentina's acceptance, subject to ratification, of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade and the Protocol thereto, I have the honour to advise you that:

  (a) In accordance with paragraph 4 of the Protocol to the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade, the Government of Argentina makes the following reservation:

    The Government of Argentina reserves the right to provide that the relevant provision of Article 4 of the Agreement shall apply only when the customs authorities agree to the request to reverse the order of Articles 5 and 6.

  (b) In accordance with paragraph 5 of the Protocol to the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade, the Government of Argentina makes the following reservations:

    The Government of Argentina reserves the right to provide that Article 5.2 of the Agreement shall be applied in
accordance with the provisions of the relevant note thereto whether or not the importer so requests.

(c) In accordance with Article 21 of the Agreement on Implementation of Article VII of the General Agreement, the Government of Argentina will delay application of all the provisions of that Agreement until 1 January 1982, and

(d) In accordance with Article 21 of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade, the Government of Argentina will delay application of the computed-value method envisaged in Articles 1 and 6 for an additional period of three years as from the date of application of all other provisions by Argentina.

In addition, I have the honour to advise you that the minimum official c.i.f. values still in effect in Argentina would no longer be in existence when Argentina begins to apply the Agreement. Those values would be eliminated or replaced, where necessary, by minimum specific duties.

On 14 August 1981 the following communication was received from the Government of Argentina:

With reference to my letter of 30 September 1980 regarding acceptance by Argentina, subject to ratification, of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade and the Protocol thereto, I have the honour to advise you that, in connection with paragraph (c) of the said letter, and due to unforeseen circumstances, the Government of the Argentine Republic has decided to delay application of the Agreement and the Protocol until 1 January 1986, in pursuance of Article 21:1. This delay will also have the effect of maintaining in force the minimum c.i.f. import values.
Consequently, and in pursuance of Article 21.2 of the Agreement, the Government of the Argentine Republic will delay application of the valuation method described in Article 1.2(b)(iii) and 6 for an additional period of three years as from the date on which Argentina has brought into application all the other provisions of the Agreement.

On the other hand, with effect from 1 January 1986 Spain became a full member State of the European Communities.
