DOCUMENTARY REQUIREMENTS FOR THE IMPORTATION OF GOODS

Addendum:

Additional information received from the Government of Australia

The Australian statement reproduced on page 2 of document L/198/Add.10 should read as follows:

1. Documents Required

The first paragraph to read:

"Although the commercial invoice is normally required to be in the prescribed form, its production would not be insisted upon in exceptional circumstances where such insistence would be unreasonable. An isolated importation from a place from which there were normally no exports to Australia might, for example, be allowed entry without the prescribed form of invoice being required."

The second paragraph to be amended as follows:

Delete the words "a prescribed form" in the last line and insert in lieu thereof the words "an official form".

2. Copies of Documents

This should read:

"Only the declared original of the commercial invoices are required."
