SIMPLIFICATION OF CUSTOMS FORMALITIES

Recommendation concerning Proof of Origin

Addendum

The following statement has been submitted by:

BRAZIL

The proposed definition has been carefully studied by the Tariff Commission, attached to the Ministries of Foreign Affairs and Finance in Rio de Janeiro.

This definition, while in accordance with Brazilian laws and the International Convention for Simplification of Customs Formalities, dated at Geneva, 3 November 1923, has at the same time the advantage of being both simple and concise, dispensing amendments.

The experts in charge of this study, adopting the definition of document L/179 - 1953, made several practical tests in order to determine the origin of goods and agreed that it should be accepted.
