(f) **Declaration on the Continued Application of Schedules**

The Declaration of 10 March 1955 has been signed at referendum by Chile and the Federal Republic of Germany; pending parliamentary confirmation, the Federal Government has undertaken to observe its provisions and the Government of Chile has advised that, subject to reciprocity, it does not intend to resort to the provisions of Article XXVIII. The Governments of Austria, Brazil, Dominican Republic and Italy, for constitutional or other reasons, have been unable to sign the Declaration but they have undertaken to observe its provisions until such time as they are in a position to accept the obligations contained therein (see L/365 and Add.1-2). Burma has been granted an extension of the time-limit for signature. The Federation of Rhodesia and Nyasaland has stated that, in view of the introduction of its new
tariff and of future negotiations, little purpose would be served by signature of the Declaration at this time (L/376). Greece has indicated that, so long as some of its negotiations under Article XXVIII are not concluded, it will not be able to sign the Declaration. Nicaragua has given no indication of its attitude. The Declaration has been accepted by the other twenty-five contracting parties.

A report by the Executive Secretary on the negotiations being conducted under Article XXVIII will be issued towards the close of the Session.
