SCHEDULE XI — FRANCE

Withdrawal of Concessions

The Head of the French delegation has addressed the following communication to the Executive Secretary:

"The French delegation wishes to inform the CONTRACTING PARTIES that under the provisions of Article XXVII the French Government wished to withdraw from Schedule XI - France, as from 1 January 1956, the following concession:

ex 146 B - China wood oil, crude;
abrasin or oleococca oils, crude

"This concession had been granted to China in Geneva in 1947. Since then China has withdrawn from the General Agreement.

"The Executive Secretary had already been notified of this withdrawal when France notified those tariff items which she wished to withdraw under Article XXVIII. No delegation having claimed a substantial interest, no negotiation has been undertaken as regards the items concerned."
