In document L/483/Add.4, a list was given of the draft Consolidated Schedules which had been distributed by the end of 1956.

The purpose of the present paper is to communicate to contracting parties all the information which has reached the Secretariat on the consolidation of the Schedules since that document was issued.

Schedule I - AUSTRALIA

The draft Consolidated Schedule submitted by Australia (English text), as amended by the corrections contained in MGT/199/56 distributed in December 1956 is considered approved. In view of the minor importance of the corrections, the Australian Government, instead of distributing new pages, has again circulated to all contracting parties a list of the corrections contained in MGT/199/56. These corrections should be made by each contracting party to the copy in their possession. It is expected that the draft Consolidated Schedule I in French will be distributed in due course.

Schedule XIV - NORWAY

The Norwegian Government has distributed eight pages to replace the corresponding pages in the draft originally distributed. It is not known whether any objections have been raised to the proposed corrections. If there have been no objections, the Consolidated Schedule XIV of Norway in English is to be considered approved. It is expected that the draft Consolidated Schedule XIV in French will be distributed in due course.

Schedule XVIII - UNION OF SOUTH AFRICA

No objection having been raised to the corrections contained in MGT/175/56, and in the Annex to document L/483 Add. 4, the South African Government has circulated to each contracting party one copy of the definitive text of its consolidated schedule in English. It is expected that the draft Consolidated Schedule XVIII in French will be distributed in due course.
Schedule XIX - UNITED KINGDOM

The United Kingdom Government having settled all points raised with respect to the draft originally circulated has distributed to each contracting party a copy of the definitive version of its Consolidated Schedule XIX in English. At the same time, a copy of its draft Consolidated Schedule in French was sent to each contracting party: the Secretariat is not aware of any objections having been raised to this draft.

Schedule XXIV - FINLAND

Lists of corrections to the draft Consolidated Schedules of Finland in English were distributed in document MT/168/56 and Corr. 1 and Corr. 2. It is not yet known whether approval of these corrections in accordance with paragraph 11 of document L/600 has been obtained by the Finnish Government. The latter has, however, prepared and distributed (one copy to each contracting party) its draft Consolidated Schedule XXIV in French.

Schedule XXV - GREECE

The Greek Government distributed to each contracting party at the end of March 1957 its draft Consolidated Schedule XXV in French. A list of corrections to this draft, submitted by the Greek Government, is being circulated to all contracting parties in document Speo/101/57. If no objections to these corrections are raised with the Greek Government by 10 October 1957, the Consolidated Schedule XXV of Greece in French shall be considered as having been approved.

Schedule XXX - SWEDEN

The Swedish Government has submitted a list of the corrections which are to be made to its draft Consolidated Schedule in English. One copy of such list is being sent to each contracting party (Spec/102/57). Any objections to these corrections should be lodged with the Swedish Government by 10 October 1957.

Schedule XXXIII - GERMANY

Contracting parties have been sent separately (Spec/100/57): a list of the corrections to be made to the draft Consolidated Schedule XXXIII in French; pages incorporating these corrections to replace the corresponding pages in the original draft in French; draft Consolidated Schedule XXXIII in English; a list of the corrections to be made to this draft, and replacement pages. Any objections to the corrections in the French text should be raised by 30 September 1957; any objections to the corrections in the English text should be made to the German Government or to the German delegation before the end of the Twelfth Session.
Schedule XXXV - PERU

A list of corrections to the Peruvian draft Consolidated Schedule was distributed to contracting parties in the annex to document L/483/Add.4. Contracting parties were given up to 10 May 1957 to raise objections.

The Peruvian Government has also signified its agreement to the request by a contracting party that the word "[Klipfish]" in item 68 be deleted. The item shall consequently read as follows:

"68 Fish dried and salted ............... KG 0.50 + 12.5 %"

It is believed that the Peruvian Government is preparing for distribution, in accordance with paragraph 11 of L/600, the corrected pages to replace the corresponding pages in the draft originally distributed. When this has been done, it is expected that the Peruvian Government will distribute the draft Consolidated Schedule XXXV in French.

Schedule V - Canada               Schedule XXI - Indonesia
Schedule VI - Ceylon               Schedule XIII - New Zealand
Schedule X - Czechoslovakia        Schedule XXXVIII - Japan
Schedule XII - India
