ITALIAN SPECIAL CUSTOMS TREATMENT FOR CERTAIN LIBYAN PRODUCTS

Sixth Report (1958) submitted by the Government of Italy in accordance with the Decisions of 9 October 1952 and 25 November 1955

1. Under their Decision of 9 October 1952, the CONTRACTING PARTIES to the General Agreement on Tariffs and Trade waived the provisions of paragraph 1 of Article I of the General Agreement to permit the Government of Italy to grant special customs treatment to certain products of Libya. This waiver was granted for the period ending 31 December 1955.

By a Decision of 25 November 1955, the CONTRACTING PARTIES extended the validity of the Decision of 9 October 1952 until 31 December 1958, and approved a number of changes in the schedule of products imported into Italy under special customs treatment.

Under the 1952 Decision, the Italian Government is required to submit a report not later than 1 September each year on the development of trade between Italy and Libya under the special treatment thus accorded.

In compliance with this undertaking, a statement concerning the development of trade between Italy and Libya under the special treatment is submitted hereafter, as was done in previous years. This report also includes statistics relating to Italian imports from other countries of products receiving special customs treatment when imported from Libya. (See Summary table hereunder.)

2. In order to bring out in a clear and detailed manner the development and pattern of Italian imports from Libya, the following tables have been prepared and are annexed to this document:

Table I - Quantity and value of products to which the special customs treatment authorized by the waiver applies, imported in 1955, 1956 and 1957: (a) from all countries, (b) from Libya, (c) from principal supplier countries, with a separate breakdown for each product.

1 The Sixth Annual Report (1958) by the Government of Libya has been distributed in document L/847.
## Imports benefitting from special customs treatment

Table II - Quantity and value of products imported duty-free regardless of considerations of origin, in 1955, 1956 and 1957: (a) from all countries, (b) from Libya, (c) from principal supplier countries, with a separate breakdown for each product.

Table III - Quantity and value of dutiable products imported in 1955, 1956 and 1957: (a) from all countries, (b) from Libya, (c) from principal supplier countries, with a separate breakdown for each product.

3. The data regarding imports from Libya or other countries under the special customs treatment are to be found in Table I. For each product, the quota admitted duty-free from Libya is shown.

It can be seen from Table I that total imports from Libya of these products have increased slightly in 1957, as compared with previous years. Whilst in 1955 the value of such imports was 941,076,000 lire and in 1956 1,238,293,000 lire, in 1957 it increased to 2,843,849,000 lire.

During 1957 there has been a considerable rise in imports of the following products: dried or salted sausage skins; fresh tomatoes; groundnut oilseeds (shelled and unshelled); castor oil and linseed oilseeds; and especially olive oil (imports of which have doubled) and tunny fish (imports of which have more than tripled).

Furthermore, it should be noted that during 1957 there was a considerable increase in these imports from all other countries.

4. Table II contains statistics of the volume and value of goods imported duty-free regardless of considerations of origin, in 1955, 1956 and 1957, from all countries.

These figures show that there have been increased imports of these products, with the exception of wool and wool waste.

The total value of such imports has increased from 1,204,106,000 lire in 1955 to 1,649,252,000 lire in 1956 and 1,783,836,000 lire in 1957.

5. Table III contains statistics of the volume and value of imports which are dutiable, regardless of considerations of origin, from all countries in 1955, 1956 and 1957.

Here again, there has been a substantial increase in purchases from Libya. The total value of such imports has risen from 68,369,000 lire in 1955 to 101,145,000 lire in 1956 and 168,925,000 lire in 1957.

6. An examination of the data submitted shows that products imported from Libya in 1957 under special customs treatment, duty-free or subject to normal duty rates, represented 3.06, 0.59 and 0.76 per cent respectively of total imports of the same products from all other countries. Total imports of goods purchased on the Libyan market represented 1.15 per cent of the same goods imported from all other countries. Finally, imports from Libya of products benefitting from special treatment represented 59.3 per cent of total Italian imports of Libyan products in 1957.
7. From earlier findings, it may be said that the special treatment accorded by Italy continues to have a favourable influence on the development of Libyan exports to Italy, which have reached a substantial level both in volume and in value. It should be noted that, according to Libyan statistics, Italy was the principal customer for Libyan exports in 1956 (39.2 per cent of the total and 57.2 per cent of the total in the first nine months of 1957).

Furthermore, it is clear that in 1957, as in previous years, the granting of special customs treatment, the scope of which is relatively limited, has caused no appreciable damage to exports from other countries, but has considerably helped the Libyan economy.
