Export sales under Section 407

(i) Export sales pursuant to monthly Commodity Credit Corporation announced price lists:

During the fiscal year 1952-53 sales from the CCC Export Price List, at prices less than the domestic market price, totalled $14 million. The bulk of this amount was accounted for by the sale of nearly 2 million bags of dry edible beans at a sales price of $10 million. Another main sale was that of 71 thousand tons of cottonseed meal ($3.7 million).

(ii) Other sales

In addition to the above sales for export through commercial channels at reduced prices, the CCC in 1952-53 sold at reduced prices nearly 20 million pounds of nonfat dry milk solids directly to the government of Israel.

Sales under the International Wheat Agreement

In order to adhere to its obligations under the International Wheat Agreement, which comes under the exception of Article XX - I (h) the United States had to pay wheat exporters the difference between the market price for wheat and wheat flour and the agreement price. Such payments totalled $126 million in fiscal year 1952-53.

Foreign Donations and Disposals for Relief Purposes

Certain additional disposals of commodities abroad by the Commodity Credit Corporation may also be noted, although they did not enter commercial channels. These disposals during 1952-53 included:
(i) The CCC donation to U.S. private welfare organizations for foreign relief purposes under the provisions of Section 416 of the Agricultural Act of 1949 of 24.2 million pounds of nonfat dry milk solids. All of these donations were made in the last quarter of the fiscal year.

(ii) The CCC sales at reduced prices of 15.0 million pounds of nonfat dry milk solids to UNICEF for use in school lunch and child feeding programmes.

(iii) A number of small sales at reduced prices consumated with U.S. relief organizations for foreign relief purposes. Such sales amounted to 4.6 million pounds of nonfat dry milk solids, 3.6 million pounds of Austrian winter peas, and nearly one-half million pounds of dry edible beans."
