The United States Government has submitted the following statement relating to the United States Export Programme for processed raisins.

Supplementary Notification of the United States Government

of 15 March 1954

"The U.S. Department of Agriculture announced on August 25, 1953 an export payment program for the 1953-54 season affecting the exportation of processed raisins. The program, which was developed under Section 32, Public Law 320, 74th Congress, as amended, became effective September 1, 1953. The program and rate of payment applies to all kinds and types of raisins produced from raisin variety grapes grown in the United States. The raisins must be processed and packed in the United States, meet or exceed specified grade requirements, and be inspected by Department inspectors prior to exportation.

"Payment at the rate of 2 cents a pound will be made to U.S. exporters who sell and export raisins in conformity with prescribed terms and conditions. The export payment program now in effect differs from the 1952-53 program principally in that all kinds and types of raisins are included whereas last year some of the less important kinds and types were excluded. Moreover, in the 1952-53 program the rate of payment was 2½ cents a pound for all eligible raisins, except for the Golden Bleached type for which the rate was 3 cents a pound.
