In distributing the section of the Report, General Trends in International Trade (MGT(59)51/Add.7), the secretariat invited comments by 6 July. The publication date for the Report has now been put back one week and therefore comments received up to 13 July can be taken into account in establishing the final text. It is hoped that contracting parties will be able to send in their suggestions by the date fixed so that the Report can be published on 25 July.
