1. At its meeting of 10 March 1983, the Group adopted a three-stage approach to its work, the first stage consisting of the compilation of an adequate information base.

2. With respect to non-tariff measures other than quantitative restrictions it was agreed that the Group would build on the Inventories of Non-Tariff Measures. Delegations were invited to avail themselves of the procedures adopted by the Council in March 1980 (C/110) to ensure the accuracy and adequacy of the existing information and, if any so wished, to submit further notifications concerning any non-tariff measures they felt the Group should include in, or delete from, its data base (NTM/2 and NTM/W/3). Contracting parties were invited to submit notifications by 15 June 1983.

3. The Inventories of Non-Tariff Measures are contained in the following documents:

   (a) **Inventory of Non-Tariff Measures**
       **(Industrial Products) (NTM/INV/I-V and Adds.1 and 2)**

       The inventory consists of five parts and a total of thirty-three sections, as recapitulated in Annex II of NTM/W/2. Two addenda to the Inventory have been issued. The second of these was circulated to delegations since the last meeting of the Group. A third addendum is presently being prepared in the secretariat, based on further notifications and comments received from delegations.

   (b) **Agriculture Inventories (AG/DOC series and AG/FOR series; see also AG/W/3)**

       (1) **AG/DOC series:**

       - **AG/DOC/1**  - Documentation and Notes of a General Nature in Regard to Agriculture
       - **AG/DOC/2**  - Licensing, Import Restrictions and State Trading Régimes
       - **AG/DOC/3**  - Sanitary and Phytosanitary Regulations Notified
       - **AG/DOC/4**  - Measures and Mechanisms Influencing Exports

AG/DOC/6 - Variable Levies and Other Special Charges on Imports
AG/DOC/7 - Marketing Standards and Packaging-and Labelling Regulations
AG/DOC/8 - "Other Non-Tariff Measures" Notified

(ii) AG/FOR series:

Information on trade measures submitted by individual countries in accordance with decisions of the Committee on Trade in Agriculture (see AG/1).
