Statements supplied by governments in response to L/196

1. Contracting parties were asked in L/196 to submit by the middle of July 1954 statements bringing up to date the information they supplied in 1953 in response to the questionnaire in L/69 on import restrictions applied for balance-of-payments reasons. The statements submitted by sixteen governments have been circulated to the contracting parties; in accordance with the established procedure only one copy was sent to each contracting party. Copies of the statements from the following governments have been received recently and a copy of each is attached hereto:
