The following communication, dated 30 September 1991, has been received from the Permanent Mission of Finland.

With reference to the procedures for changes in the Harmonized System adopted by the Committee on Tariff Concessions on 31 July 1991, Finland hereby submits a notification of the proposed changes to Schedule XXIV of Finland which, as a result of the changes in the Harmonized System, are planned to come into force on 1 January 1992.

Annex I includes the pages of Finland's loose-leaf schedule which contain items in respect of which the proposed changes do not alter the scope of concessions as well as items in respect of which the proposed changes will alter the scope of Finland's concessions.

Annex II includes a concordance table of items in respect of which the present scope of concessions has been altered, i.e. there is a change in the bound rate of duty (changes indicated by an asterisk) or a change in the product description.

Annex II also includes a separate list (II a) of items with a changed bound rate of duty. No import statistics on these items are available, because they all are "ex-out" items. In Finland's opinion, trade in these items hardly exists. There is no INR on them.

If no objection is notified to the secretariat within ninety days from the date of this document, the changes to Schedule XXIV - Finland will be deemed to be approved and will be formally certified.

1The Annexes are in English only.
