HARMONIZED SYSTEM - NEGOTIATIONS UNDER ARTICLE XXVIII

Submission of Documentation

Schedule VII - Chile

The following communication has been received from the Permanent Mission of Chile.

I transmit herewith the following documents sent to us by the Government of Chile, comprising the study and transposition of the Schedule of Concessions for Chile under the CCCN system to the Harmonized System; as well as from the latter to the CCCN system solely for those products for which the customs tariff binding is lower than 35 per cent.

The documentation includes the following annexes:

Annex I(a): Existing Schedule VII - Chile (in English);
Annex I(b): Existing Schedule VII - Chile (in Spanish);
Annex II: Proposed Schedule VII (in Spanish only);
Annex III: Concordance table from the existing to the proposed schedule;
Annex IV: Concordance table from the proposed to the existing schedule.

It should also be pointed out that statistics are not provided, since in principle the transposition process has not modified any tariff or principal negotiating right. Nevertheless, Chile remains at the disposal of all other contracting parties for any consultation they may wish to make.
