TRANSLATION OF CONSOLIDATED LISTS OF CONCESSIONS

Note by the Secretariat

The attention of delegations is called to the fact that on the day of publication of the results of the conference schedules of concessions will have to be available not only in the authentic language, but also in translation. The date for such publication has not yet been fixed; translations will, however, need to be ready and typed on stencils by 19 May 1956 when the secretariat will start the preparation of the final text of the Protocol for signature.

At previous tariff conferences delegations which could not translate their consolidated lists of concessions have, through the secretariat, engaged the services of the International Customs Tariff Bureau for this purpose.

Delegations which expect that they may wish to use the Brussels Bureau should inform the secretariat without delay so that the Bureau may be given notice of the work which may be required of them.

In order to allow the Brussels Bureau sufficient time to prepare the translations and to avoid presenting it with a large number of texts at the last moment, it is suggested that delegations requiring the services of the Bureau should approach the secretariat as soon as the first bilateral list or lists are available.
