SUB-GROUP D ASSOCIATION OF OVERSEAS TERRITORIES

The mandate of the Sub-Group is to examine, in the light of the discussion in the Committee on the Rome Treaty, the provisions of the Treaty relating to the association with the Common Market of the overseas territories.

In order to facilitate the discussion, it is suggested that the matter be examined under the following principal headings:

(a) the régime applicable in the overseas territories, including the provisions relating to fiscal duties, protective tariffs and export duties;

(b) the régime applicable to exports from the overseas territories to the Common Market;

(c) problems presented by these arrangements for the trade of other contracting parties;

(d) procedures which might be established for further discussion of these problems with the signatories of the Rome Treaty and eventually the institutions of the Common Market.
