Other International Arrangements

5. What long-term commitments (including preferential arrangements, clearing arrangements, etc.) have the Polish Government or the import monopolies, which might affect Poland's obligation towards contracting parties under the GATT?

6. Would the Polish Government be prepared to supply detailed information about the obligations within the framework of the Council for Mutual Economic Aid and the possible effect of such obligations on her obligations towards contracting parties under the GATT?

7. The Polish Government seems to have made certain reservations as regards trade with some of the countries with which it has concluded bilateral agreements. It would be of interest to know whether such agreements, other than those concluded with Eastern European countries, are covered by these reservations. (We do not know what this means, and suggest that the Secretariat discuss with the author.)

8. What is the method of settling accounts and extending credit among the countries members of the Council for Mutual Economic Aid? (Is there a system of multilateral settlement?)

Methods of Payment for Trade with Western Countries

9. If a standard method of settlement by currencies is applied, what are the characteristics of that method?

10. What is the method of settling accounts with Western countries? Is a clearing system applied, and if so what is the basic form of that system?

11. With which countries has Poland already established multilateral payments arrangements?
