The Provisional Cotton Textile Committee decides:

(1) to set up a technical sub-committee on which all participating countries will be represented;

(2) the Technical Sub-Committee shall meet on 11 December to consider, in the light of the discussions which have taken place at this session of the Committee, proposals for a long-term arrangement concerning trade in cotton textiles;

(3) the Technical Sub-Committee shall report to the Committee at its next session and make the necessary recommendations;

(4) in order to assist the Technical Sub-Committee in the examination of the questions referred to it, the Committee decides:

(a) to instruct the secretariat to extract from the statistical material already available to the members of the Committee, and to assemble in synoptic tables, the following data:

1. per caput production of cotton textiles in 1960 (yarns, grey cloth, other fabrics and made-up articles, garments);

2. per caput (retained) imports of cotton textiles broken down into the four categories defined above (from all origins, from the six countries listed in the tables contained in Spec(61)226);

3. per caput apparent consumption of cotton textiles, broken down into the four categories defined above (production plus retained imports, minus exports);

4. share of: a. total imports from all origins;
   b. imports from the six countries in per caput apparent consumption;

(b) to invite the participating governments to communicate to the secretariat, by 30 November, the following data:

1. annual consumption of cotton textiles (broken down into the four categories listed above) during the period 1950/1960, and any information available on probable trends of consumption in 1961 and the following years;

Spec(61)324
ii. annual production of cotton textiles (broken down into the four categories listed above) during the period 1950/1960, and any information available on probable trends of production in 1961 and the following years;

iii. estimates of the imports of cotton textiles (from all origins and from the above-mentioned six countries) which are re-exported after further processing or not; this information will be provided only when the statistics made available to the secretariat do not distinguish between retained imports and other imports.

(5) The Technical Sub-Committee shall also draft for the next session of the Committee a list of statistical data which would have to be assembled in order to enable the Textile Committee to discharge its functions under the Textile Arrangements;

(6) The Committee shall meet on to consider the report of the Technical Sub-Committee.
