Dear Sir,

It appears from references in the press that some Governments may have made public statements giving some details, or commenting upon, the results of the 1960-61 Tariff Conference which ended on 16 July 1962.

It would be very much appreciated if you could obtain the full text of any announcement that may have been issued by your Government on this subject and send it to the GATT Information Office, if possible not later than 31 July.

I trust that this request does not put you to great trouble.

Yours truly,

Richard R. Ford,
Head, Information and Library Services.
