Working Party on Poultry

DATA REQUIRED FOR THE WORKING PARTY

The Working Party decided that the statistical data listed below would be required for its work at the next meeting.

Period to be covered: Years 1963 to 1967. Data for 1967 might have to be partial, and would be supplemented by delegations.

Products to be covered: chickens
parts of chickens
turkeys
parts of turkeys
other poultry
total poultry.

The above would be shown separately to the extent possible, except in respect of consumption, where data will cover all poultry.

Import data: Volume of imports by importing country and origin, into individual countries members of the Working Party and into Spain and Hong Kong, from members of the Working Party, Bulgaria, Hungary, Rumania, Mainland China and others, shown separately to the extent possible.

Export data: Volume of exports by exporting country and destination, from individual countries members of the Working Party.

Production data: Volume of production in the individual countries members of the Working Party, and, to the extent possible, Spain, Bulgaria, Hungary, Rumania and Mainland China.

Consumption data: Annual per caput consumption of all poultry in the individual countries listed in the preceding paragraph, to the extent possible.

Price data: Delegations will supply to the secretariat, to the extent possible, price series in respect of:

(a) import prices in the markets of destination;

(b) domestic wholesale prices;
for the following categories: (i) broilers and fryers
(ii) stewers
(iii) turkeys
(iv) turkey parts
(v) chicken parts.

Export aids and other mechanisms influencing export prices: Data will be supplied by delegations.

Time schedule: It was agreed that delegations would supply the data for 1963 to 1967 on prices, export aids and other mechanisms influencing export prices, and data for 1967 in respect of imports, exports, production and consumption, so as to reach the secretariat by 25 April 1968.
